**The Woodwright's Workbook** Roy Underhill 2012-01-01 Roy Underhill is America's best-known master of traditional woodcraft. Creator of the popular PBS series The Woodwright's Shop, Roy has inspired millions--from professional

craftsman to armchair woodworker--with his talent, knowledge, and enthusiasm. Roy returns here with his third book. The Woodwright's Workbook features step-by-step instructions for a selection of projects from his television series. All projects are illustrated with photographs and measured drawings. Included here are plans for tool chests, workbenches, lathes, and historical reproductions of items for the home: a six-board chest, rustic chairs with cattail seats, a churn for the kitchen, and the Rittenhouse hygrometer. Roy also explores building barns, forges, boats, and even colonial fortresses. A wonderful feature of this book is Roy's own translation of the humorous fifteenth-century poem The Debate of the Carpenter's Tools. He also provides a fascinating and useful 'field guide' to American tool marks that shows how to identify the specific tool used by the marks it left. Whether Roy is an old friend or a new acquaintance, let him be your guide to the world of traditional woodworking.
