**Behind the Silence** Jing-Bao Nie 2005 Behind the Silence is the first in-depth work in any language to explore the diverse perspectives of mainland

Chinese regarding induced abortion and fetal life in the context of the world's most ambitious and intrusive family planning program. Through his investigation of public silence, official standpoints, forgotten controversies from the imperial era, popular opinions, women's personal stories, doctors' narratives, and the problem of coerced abortion, Nie Jing-Bao brings to light a surprising range of beliefs concerning fetal life and the morality of abortion, yet finds overall an acceptance of national population policies. China's internal plurality, the author argues, must be taken seriously if the West is to open a fruitful cross-cultural dialogue. Visit our website for sample chapters!

**Rising Son** Janita Lo 2011-05 Daughter recounts father's life as Chinese legend in historical novel. Fulfilling her father's last wish, Janita Lo shares his real life stories in "Rising Son: Reflections of a Chinese Gentleman Warrior."

HOUSTON - Based on the true first-hand accounts of Khan Ling and his wife, Che Yu, Janita Lo has lovingly combined her parent's stories into a cohesive work of historical fiction, "Rising Son: Reflections of a Chinese Gentleman Warrior" (ISBN: 0615426042). "I am Khan Ling, son of Khan Bei, a descendant of Genghis Khan; the only heir of my grandfather, Khan Gong Shun, Royal Army Commander of the Ch'ing Dynasty and of my grandmother, Princess May Szee, granddaughter of the Emperor Xianfeng...These are merely the particulars of my lineage. It is not so much the people, but rather the circumstances and my own choices that have made me who I am today." Thus begins the story of Khan Ling. In "Rising Son: Reflections of a Chinese Gentleman Warrior," Lo tells the

story of her father, Khan Ling, in his own voice, bringing life to the stories he told her as a child. Ranging through the turmoil of late 1800's Ch'ing (Qing) Dynasty in China to the early 19th century, the story of Khan Ling is a tale of bravery, excitement and intrigue, but also a tale of loss and loneliness. Lo, speaking in the voice of her father, aims to express the longings of a young boy growing to adulthood in the tumultuous era before and including World War II. Khan was born in a Buddhist temple to a Chinese father and a Japanese mother. After the death of his father, Khan was reared at the temple by the monks who lived and studied there. Though surrounded by caring teachers, he missed the comfort and care of his mother and father. Later on he would lose his

mother to tragedy. These events would color his life and exploits throughout a long life. Khan Ling served in the Chinese intelligence department under Chiang Kai-shek in the conflict with Japan. During this time, China was debating the role of Western influences as the country shifted from dynastic rule into an industrialized society. Throughout these events, Ling struggled with the internal conflict of his half-Chinese and half-Japanese lineage, though he did eventually place his loyalty firmly with China. He fought against the Japanese underground and was able to help release many Chinese families held captive by the Japanese in Hong Kong from 1943-1945. "This is more than a story about a man of heroic achievement," says Lo. "It's a study of the human soul, about young love,

romance, chivalry, loss, longing and the desire for the nurturing of a family." This story provides a rich, textured look at the human experience as well as the exciting, enigmatic life of a local legend from royal lineage whose name was omitted from Chinese history books due to the misconceptions that surrounded him. Honestly and with historical accuracy, Lo takes her readers to Khan's China, where danger and opportunity walked hand in hand; where a young Chinese gentleman fulfilled his destiny. Lo lets readers experience the mysterious Chinese culture: patriotism, heroism, bravery, compassion, love, romance and the power of the human spirit under extraordinary circumstances in "Rising Son: Reflections of a Chinese Gentleman Warrior." The historical

information in this manuscript is authentic. The main characters heroic and humanitarian accomplishments are painstakingly recounted through the tales told by her late father, Khan Ling. "Rising Son," would appeal to readers who enjoy the real-live drama of historical accounts and personal memoirs. Educational and enlightening in so many respects, "Rising Son" is a timely addition to the literary world and contemporary reader's bookshelf especially considering the growing importance of China in our everyday lives.

2014-11-04 Fighting for the Dream is a collection of oral histories of 40 Chinese American men and women-ages 24 to 94-who served in wars from World War II to conflicts in Afghanistan. These individuals defied

boundaries, went against their cultural grain, and changed history. Through their personal stories, we see a greater tapestry that is the story of America in the last hundred years. This collection also features the

stories of: World War II veterans Genson Lum, Peter Woo, Kay Wong Chin, Dr. Wing Mar, Al Chinn, Earl Jung, Tom Wah Sun Lew, Mack Pong, Sam Jue, Richard Y.W. *SHAN HAI JING—A BOOK COVERED WITH BLOOD* Kate Bazilevsky 2014-08-22 In essence, this story is about how a certain person was searching his bookshelf for something to read and

in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information

about representatives of a particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they

discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific

discovery made by Andrey Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this

"civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.

**OSS Operation Black Mail** Ann Todd  
2017-09-15 OSS Operation Black Mail is the story of a remarkable woman who fought World War II on the front lines of psychological warfare. Elizabeth P. McIntosh spent eighteen life-changing months serving in the Office of Strategic Services in what has been called the "forgotten theater," China-Burma-India, where she met and worked with people as

diverse as Allen Dulles, Julia Child, and Ho Chi Minh. Her craft was black propaganda, and her mission was to demoralize the enemy through prevarication and deceit, and ultimately, convince him to surrender. Betty's effectiveness stemmed from her ability to target not merely the Japanese soldier, but the man with-in: the husband, the son, the father. Her black propaganda was boldly experimental and groundbreaking; destined to play a key role in the Cold War.

Globalization after the Pandemic Qin Hui 2021-08-30 The coronavirus pandemic that broke out in 2019 has finally calmed down in China, after the bungling occasioned by the iron hand of lockdown. But beginning in March 2020, the disaster spread abroad, and at present there is no

end in sight. Discussions of the changes the pandemic brings to the world, and how "plagues change history," are a hot topic everywhere. In this book, Prof. Qin Hui offers a stunning reflection on the impact of the coronavirus pandemic on political institutions, which are well worth pondering for both China and the West. China, with its "low human rights advantage," has achieved success in imposing coercive lockdowns that got the virus under control after the disastrous outbreak in Wuhan, but it will be a challenge to prevent the normalization of emergency measures from worsening human right conditions in normal times. The West, handicapped by its "human rights (dis)advantage," must learn how a democracy can efficiently enter a state of emergency and put an

end to these measures at the proper time. **Wings Over Asia 2** China National Aviation Association Foundation  
2016-09-13 Wings Over Asia: A Brief History of the Chinese National Aviation Corporation is a sometimes moving, sometimes rollicking, sometimes heart-stopping, account of a critical part of the history of WWII. Japanese, these stories bring that era alive in a way no technical history book could.

**Red Chamber, World Dream** Jing Sun  
2021-03-08 Chinese president Xi Jinping is most famously associated with his “Chinese Dream” campaign, envisioning a great rejuvenation of the nation. Many observers, though, view China’s pursuit of this dream as alarming. They see a global power ready to abandon its low-profile diplomacy and eager to throw its weight around. Red Chamber, World Dream represents an interdisciplinary effort of deciphering the Chinese Dream and its global impact. Jing Sun employs methods from political science and journalism and concepts from literature, sociology, psychology and drama studies, to offer a multilevel analysis of

various actors' roles in Chinese foreign policy making: the leaders, the bureaucrats, and its increasingly diversified public. This book rejects a simple dichotomy of an omnipotent, authoritarian state versus a suppressed society. Instead, it examines how Chinese foreign policy is constantly being forged and contested by interactions among its leaders, bureaucrats, and people. The competition for shaping China's foreign policy also happens on multiple arenas: intraparty fighting, inter-ministerial feuding, social media, TV dramas and movies, among others. This book presents vast amounts of historical detail, many unearthed the first time in the English language. Meanwhile, it also examines China's diplomatic responses to ongoing issues like the Covid-19

crisis. The result is a study multidisciplinary in nature, rich in historical nuance, and timely in contemporary significance.

Voices from Tibet Tsering Woesser  
2014-01-01 'Voices from Tibet' assembles essays and reportage in translation that capture many facets of the upheavals wrought by a rising China upon a sacred land and its pious people. With the TAR in a virtual lockdown after the 2008 unrest, this book sheds important light on the simmering frustrations that touched off the unrest and Beijing's relentless control tactics in its wake. The authors also interrogate long-standing assumptions about the Tibetans' political future. Woesser's and Wang's writings represent a rare Chinese view sympathetic to Tibetan causes. Their

powerful testimony should resonate in many places confronting threats of cultural subjugation and economic domination by an external power.

**Culture, Music Education, and the Chinese Dream in Mainland China** Wai-Chung Ho 2018-01-04 This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide

us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China.

Tiananmen Exiles Perry Link 2014-04-09 In the spring of 1989, millions of citizens across China

took to the streets in a nationwide uprising against government corruption and authoritarian rule. What began with widespread hope for political reform ended with the People's Liberation Army firing on unarmed citizens in the capital city of Beijing, and those leaders who survived the crackdown became wanted criminals overnight. Among the witnesses to this unprecedented popular movement was Rowena Xiaoqing He, who would later join former student leaders and other exiles in North America, where she has worked tirelessly for over a decade to keep the memory of the Tiananmen Movement alive. This moving oral history interweaves He's own experiences with the accounts of three student leaders exiled from China. Here, in their own words, they describe their childhoods

during Mao's Cultural Revolution, their political activism, the bitter disappointments of 1989, and the profound contradictions and challenges they face as exiles. Variouslly labeled as heroes, victims, and traitors in the years after Tiananmen, these individuals tell difficult stories of thwarted ideals and disconnection, but that nonetheless embody the hope for a freer China and a more just world.

**Leaving the World to Enter the World**  
Mark Leenhouts 2005 Leaving the World to Enter the World focuses on the fictional and theoretical writings of Han Shaogong, one of the most striking voices in contemporary Chinese literature. Han played a central role in the 'root-seeking' trend that dominated the literary scene of the People's Republic of China in the mid-1980s. His work has won him acclaim from a wide range of readers in Chinese and other

languages, a highlight being the 1996 novel *Dictionary of Maqiao*. Critics have labeled Han the leader of a nationalist movement in search of a cultural identity. Mark Leenhouts shows that Han's role is much more complex, demonstrating that his literary practice is a highly individual, creative continuation of Chinese tradition. Han's personal style transcends the narrow boundaries of root-seeking as it has been portrayed in literary histories and criticism to date. This rectification of the one-sided image of Han Shaogong has profound implications for the significance of root-seeking literature, and for questions of tradition and modernity that have been among the most hotly debated topics in Chinese literary, intellectual and political thought

throughout the 20th century. Leaving the World to Enter the World does justice to the individuality of the literary author by taking the intrinsic structure of the literary work as its starting point. Leenhouts' close textual analysis, as intelligent and pragmatic as it is sensitive, will help counterbalance the socio-political orientation typical of much recent research. By seeing Han Shaogong as a writer rather than a mouthpiece of historical forces, this book opens up new perspectives for enjoying his literary mastery.

Let 100 Voices Speak Liz Carter  
2015-07-16 From the Occupy movement in the Western world to the Arab Spring and the role of Twitter in the Middle East, the internet and social media is changing the global

landscape. China is next. Despite being a heavily-censored society, China has over 560 million active internet users, more than double that of the USA. In this book, social media expert and China-watcher Liz Carter tells the story of how the internet in China is leading to a coming together of activists, ordinary people and cultural trendsetters on a scale unknown in modern history. News about protests and natural disasters, or gossip and satirical jokes, are practically uncensorable and spread quickly through Weibo - the Chinese Twitter - and the Chinese internet underground. More than that, a grassroots, foundational shift of assumptions and expectations is taking place, as Chinese men and women cast off the communistera 'stability at all costs'

mantra and find new forms of selfexpression, creativity and communication with the world. **Shanghai 1937** Peter Harmsen 2015-10-20 The New York Times bestseller that inspired the documentary Shanghai 1937: Where World War II Began on Public Television. At its height, the Battle of Shanghai involved nearly a million Chinese and Japanese soldiers while sucking in three million civilians as unwilling spectators—and often victims. It turned what had been a Japanese imperialist adventure in China into a general war between the two oldest and proudest civilizations of the Far East. Ultimately, it led to Pearl Harbor and to seven decades of tumultuous history in Asia. The Battle of Shanghai was a pivotal event that helped define and shape

the modern world. In its sheer scale, the struggle for China's largest city was a sinister forewarning of what was in store only a few years later in theaters around the world. It demonstrated how technology had given rise to new forms of warfare and had made old forms even more lethal. Amphibious landings, tank assaults, aerial dogfights, and—most important—urban combat all happened in Shanghai in 1937. It was a dress rehearsal for World War II—or, perhaps more correctly, it was the inaugural act in the war, the first major battle in the global conflict. Actors from a variety of nations were present in Shanghai during the three fateful autumn months when the battle raged. The rich cast included China's ascetic Generalissimo Chiang Kai-shek and his Japanese adversary, General

Matsui Iwane, who wanted Asia to rise from disunity, but ultimately pushed the continent toward its deadliest conflict ever. Claire Chennault, later of "Flying Tiger" fame, was among the figures emerging in the course of the campaign, as was First Lady Eleanor Roosevelt. In an ironic twist, Alexander von Falkenhausen, a stern German veteran of the Great War, abandoned his role as a mere advisor to the Chinese army and led it into battle against the Japanese invaders. Shanghai 1937 fills a gaping chasm in our understanding of the War of Resistance and the Second World War.

**China Dreams** William A. Callahan  
2015-04-01 After celebrating their country's three decades of fantastic economic success, many Chinese are now asking, "What comes next?" How

can China convert its growing economic power into political and cultural influence around the globe? William A. Callahan's *China Dreams* gives voice to China's many different futures by exploring the grand aspirations and deep anxieties of a broad group of public intellectuals. Stepping outside the narrow politics of officials vs. dissidents, Callahan examines what a third group--"citizen intellectuals"--think about China's future. *China Dreams* eavesdrops on fascinating conversations between officials, scholars, soldiers, bloggers, novelists, film-makers and artists to see how they describe China's different political, strategic, economic, social and cultural futures. Callahan also examines how the PRC's new generation of twenty- and thirty-somethings is

creatively questioning "The China Model" of economic development. The personal stories of these citizen intellectuals illustrate China's zeitgeist and a complicated mix of hopes and fears about "The Chinese Century," providing a clearer sense of how the PRC's dramatic economic and cultural transitions will affect the rest of the world. *China Dreams* explores the transnational connections between American and Chinese people, providing a new approach to Sino-American relations. While many assume that 21st century global politics will be a battle of Confucian China vs. the democratic west, Callahan weaves Chinese and American ideals together to describe a new "Chimerican dream."

*Documentaries and China's National Image* Chen Yi 2022-08-30 Emphasizing the role of documentary in shaping a nation-state's image, demonstrating social development and promoting cultural exchanges, this book examines the changes in China's national image in documentaries at home and abroad since 1949. Based on theoretical frameworks of media sociology, political economy of communication and cultural studies, the book traces the development of Chinese documentary and discusses social transformation and cultural representation embodied in documentaries related to China. It is revealed how these works witness, reflect and interact with social

transitions in all aspects of a modernizing China, as well as how documentary production struggles among and mediates between technology, market, ideology, social forces and professionalism. In terms of future prospects of documentary in an era when media convergence is burgeoning, the author explores feasible paths to further promotion of cross-cultural communication and China's national image, by analyzing documentary aesthetics and representative cases of documentary practice. The title will appeal to scholars and students interested in culture and communication, documentary, film, media and Chinese society.

Leadership; Chinese Communist Party; China Reviews: "In this timely and pioneering publication, the authors asked the questions of where China wants to go and where it is actually going. While Mr Xi Jinping's 'China Dreams' suggested an all-encompassing China agenda, the imagination, interpretation and realization of the Dreams have been far more dynamic and not necessarily coherent. This well-edited volume covers key areas of China's political, economic and social development under Xi's leadership. The collection stands out in its balanced treatment of both the state and grassroots actors, and both the shared and separate dreams. It also makes a great contribution to the literature on Global China, as much of the 'China Dreams' is inevitably

connected with the dreams of other peoples and countries." You-tien Hsing Professor of Geography Pamela P Fong and Family Distinguished Chair in China Studies Chair of Center for Chinese Studies University of California at Berkeley "Written by leading scholars of Chinese politics, economics, history, and society, this volume is one of the first to analyze Chinese leader Xi Jinping's notion of 'China Dreams'; Exploring both the content and likely impact of Xi's 'China Dreams', the authors paint a multifaceted picture of China's historical development, current status, and future trajectory – both domestically and internationally. Their findings suggest that China's leaders face substantial challenges, and that the realization of Xi's 'Dreams' may not be smooth. Some

groups and vested interests appear determined to resist or redirect Xi's 'Dreams'. And there are signs that conflict and tension may accelerate, not only between the Chinese party-state and its people, but also within the party-state, and between China and other countries. For readers seeking a wide range of perspectives on China's rise, this volume provides much food for thought." Teresa Wright Chair and Professor of Political Science, California State University

China Doesn't Exist Daniel Marques  
2014-10-28 As the world continues to evolve in unpredictable directions, but the Portuguese economy remains predictably in permanent decline, as it has been for centuries since the fall from world first place, there is

a search for explanations, solutions and answers that seem apparently nonexistent. An analysis of the past reveals numerous causes for the fall of a nation, but this study shows equally or more relevant as the observation of new emerging nations. Against this backdrop, China now presents itself as an example of good economy and society to the Portuguese, even though also in this attitude they are behind many others, which have already passed this stage and start looking for a new possibility in the future post China. The Portuguese investments in the east have been increasing in the same way as before the trade settled in the Lusophone countries like Brazil, Angola and Mozambique. But is this Chinese reality so promising? Many studies conducted in China have

overlooked extremely important details that dictate the real scenario of this country. It is based on this hidden truth that this book seeks to portray what really is going on in this new world number one. Although comparing two distinct situations, of two countries also very different in dimensions, there is here further study, such as what two large empires may enable understanding. From the fall of the world longest empire, as is the case of Portugal, to the emergence of a new empire risen from the ashes and poverty, as it's China's situation, much there is to compare in order to achieve better predictions about markets and economies in the world scnerario. Thus, this book shows itself highly relevant and necessary for businessmen and politicians of

any country, seeking to establish trade and investment with China, but also for those who want to live and work in this country. This work does not hide many of the most perverse situations of this modern nation and the Chinese way of thinking towards the West, to evidence what the Chinese actually plan for the entire planet. It's an opportunity to get to know this country deeply and what it represents for the future of humanity. This work is based on a study of more than six years, held in various cities from north to south, and consists of numerous interviews with citizens of both countries. But, still presents comparisons relative to other European and Asian countries, mainly in the area of business. This work reveals the truth hidden by the media and fantasy films

about the east, beyond the legends, Chinese stories and philosophies, which represent a false image of China, which today exists hidden behind the shadow of the past.

the group together, love blossoms, but with soldiers hot on their tail, they need to stay vigilant in the face of war. War Kids is a story about the Syrian Civil war through the eyes of a group of teenagers. Reviews "This is a taunt thought provoking book that grips the reader from the very first page to the last." "This story was heartbreaking and unique because it is told through the children's point of view. I can only recall one other story that comes close to this one and that is The Works of Anne Frank. I hope to read more of H.J. Lawson's work in the future." "Very interesting story, very powerful. I can really feel the emotion." "This book really touches my heart because there is so much truth is in this book." "The detail is so brilliantly displayed, its

beautifully written. There are pretty intense chapters, its good... scrap that its excellent. Love the work ...although I am upset. I know this is a fictional story, but I just can't help but feel extremely bad for all the lost lives especially the innocent and young ones." "A REMARKABLE BOOK, DEMANDS TO BE READ" All profits from the book will be going to the save the children charity.

Asian Voices in English Mimi Chan 1991-08-01 A selection of papers presented at the Symposium on English Literature by Asian authors entitled Asian Voices in English held at The University of Hong Kong, 27-30 April 1990. Two kinds of writing experience are focused upon: one is the experience of post-colonial writers, who are re-appropriating the English

language for their own cultural purposes. The other is the experience of immigrant writers, who bring an Asian view to bear on the culture of the English-speaking countries in which they live.

**China and the American Dream** Richard Madsen 1995-03-08 From the "Red Menace" to Tiananmen Square, the United States and China have long had an emotionally tumultuous relationship. Richard Madsen's frank and innovative examination of the moral history of U.S.-China relations targets the forces that have shaped this surprisingly strong tie between two strikingly different nations. Combining his expertise as a sinologist with the vision of America developed in *Habits of the Heart* and *The Good Society*, Madsen studies the cultural myths that have shaped the

perceptions of people of both nations for the past twenty-five years. The dominant American myth about China, born in the 1960s, foresaw Western ideals of economic, intellectual, and political freedom emerging triumphant throughout the world. Nixon's visit to China nurtured this idea, and by the 1980s it was helping to sustain America's hopefulness about its own democratic identity. Meanwhile, Chinese popular culture has focused on the U.S., especially American consumer goods—Coca-Cola was described by the People's Daily as "capitalism concentrated in a bottle." Today we face a new global institutional and cultural environment in which the old myths no longer work for either Americans or Chinese. Madsen provides a framework for us to think about the

relationship between democratic ideals and economic/political realities in the post-Cold War world. What he proposes is no less than the foundation for building a public philosophy for the emerging world order.

### **Chinese Cinemas in Translation and Dissemination** Haina Jin 2021-11-30

Ever since film was brought into China at the end of the nineteenth century, translation has conquered language, ideological and cultural barriers and facilitated the dissemination of films in China. Offering fresh visions and innovative studies on various important issues, including mistranslation, the dubbing of Hong Kong kung fu films, the dubbing of foreign films in China, the subtitling of Chinese dialect films, the subtitling of independent

Chinese documentaries, and a vivid personal account of the translation and distribution of Chinese cinemas in France, this book aims to generate international dialogue by presenting diverse approaches to the translation and dissemination of Chinese cinemas. This book builds on previous research and further expands the horizons of the subfield, with the hope that this intervention will suggest new possibilities and territories for the study of the translation of Chinese cinemas. Translated foreign films have become an integral part of Chinese cinemas and translated Chinese films have in turn enriched the concept of world cinema. In many ways, it is a timely publication in the context of the globalization of the film industry - as Chinese films increasingly go global. The chapters

in this book were originally published as a special issue of the *Journal of Chinese Cinemas*. *Chinese American Voices* Judy Yung 2006 "Skillfully selected, translated, and annotated, this compelling compendium of voices bear witness to the diversity and depth of the Chinese American experience and, significantly, its indispensable centrality to American life and history."--Gary Y. Okihiro, author of *Common Ground: Reimagining American History* "Here at last is a wide-ranging record of Chinese American experiences from the viewpoints of the players. *Chinese American Voices* is an impressive feat of scholarship, an indispensable reference, and a compelling read."--Ruthanne Lum McCunn, author of *Thousand Pieces of Gold* and *The Moon Pearl* "This

anthology offers a virtual "Gam Saan" (Gold Mountain) of original sources. The stories burst with telling and re-affirm a vision of men and women as actors in history, who made themselves as Chinese Americans as they helped to make America itself."-  
-Ronald Takaki, author of Strangers from a Different Shore: A History of Asian Americans "This volume of sixty-two annotated documents, many translated from Chinese for the first time, is a boon to faculty and students interested in Chinese American history, Asian American history, U.S. immigration history, and race and ethnic relations. The life stories, in particular, are appealing for students, the reading public, and scholars alike as they hear the voices of individuals long misunderstood, denigrated, and

silenced. All of us owe a debt of gratitude to the three editors for their dedicated labor of love."--  
Sucheng Chan, author of Chinese American Transnationalism: The Flow of People, Resources, and Ideas between China and America during the Exclusion Era "This is a superb collection."--Roger Daniels, author of Guarding the Golden Door: American Immigration Policy and Immigrants since 1882

**Global Crisis, Local Voices** Gabriele Piazza 2019-04-01 In an interconnected and globalized world, the voices of the local communities struggle to make themselves heard on the international stage. But many issues that arise within international relations have consequences for ordinary lives and are therefore closely connected.

Climate change, warfare and migration are all examples of this. They are often discussed in abstract terms with relation to international diplomacy, but threaten the actual livelihoods of small communities and ordinary people. This was the setting of the conference 'Global Crisis, Local Voices', held in May 2018. This journal is a compilation of the papers presented at that conference, which was the second 'DEN International Student Conference'. The conference and this publication is one of the many projects that the Democratic Education Network (DEN) is responsible for since its launch in 2016. This book is a collection of diverse works, all written by student authors from a range of different universities. From Democracy and Ideology, to Climate Change and

China, it covers numerous concepts, ideas and geographical regions, that are often found in the studies of Politics and International Relations. This book is the result of passion and hard work from all students involved in its production and it is a project that we in DEN are incredibly proud of and hope to continue in the future. "I encourage you to read these publications to catalyse views in you that stimulate great debate that helps you become part of the compassionate, progressive and responsible movement of young people that will help overcome injustices in the world and make the world a better place."
