Getting the message through: A Branch History of the U.S. Army Signal Corps Rebecca Robbins Raines 1996
Getting the Message Through, the companion volume to Rebecca Robbins Raines' Signal Corps, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also

such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of little or no military value--and the communications it provides have become integral to all aspects of military operations on modern digitized battlefields. The volume is an invaluable reference source for anyone interested in the institutional history of the branch.

Fleur Smithwick

2015-01-29 Have you ever thought someone was

watching you . . . but there was no one there? One summer's evening,

Alice sees something out of the corner of her eye. She turns to look: just a trick of the light. She is no longer

the lonely little girl she once was, with her games of make-believe and imaginary friend,

Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At

first Alice is comforted by his presence: a best

friend to help fill the void in her heart.

Perhaps even help her find someone real to share her life with. But

Alice and Sam know he can only exist if she wants him there. So when

Alice decides it's time for him to leave, who will get hurt in order

for him to stay alive? A compelling novel that fans of page-turners

The Glass Castle

Jeannette Walls

2006-01-02 Journalist

Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to

escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description. *Army-Navy-Air Force Register and Defense Times* 1907

Democracy and Education

John Dewey 1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and

contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

Event-Based Programming

Ted Faison 2006-12-06
This book shows how to develop software based on parts that interact primarily through an event mechanism. The book demonstrates the use of events in all sorts of situations to solve recurring development problems without incurring coupling. A novel form of software diagram is introduced, called Signal Wiring Diagram. These diagrams are similar to the circuit diagrams used by hardware designers. A series of case studies concludes the book, bringing all the next concepts introduced together. Source code is provided in both C# and VB.NET
