The Kidult Handbook Nicole

Booz 2018-05-15 Adulting is

hard! But “kidulting”— engaging

in nostalgic childhood activities

to relieve stress, like playing

with your old favorite toys,

participating in games and

activities from your youth, and

even snacking on the foods you

enjoyed as a kid— isn’t. Let this

book be your guide to indulging

your inner child. “Kidulting” is a

thing, and it’s growing!

Especially popular among

millennials, the term “kidulting”

refers to engaging in activities

from your childhood, sometimes

with a grown-up twist.

Psychology Today points out

that playing like a kid helps you

look at the world with fresh

eyes—or “beginner’s

mind”—which allows you to slow

down and focus. The Kidult

Handbook is a fun and

informative guide to healthy

escapism through play. Much

like adult coloring books,

kidulting is a way of focusing

your mind on something fun

and creative to relieve stress.

But this book goes way beyond

just coloring—it includes 160

ideas for fun, from timeless

classics like building blanket

and pillow forts, to generation-

specific ideas, from millennials

to boomers. Interspersed

throughout are fun facts and

trivia about games through the

ages. Most activities are unplugged and screen-free, and range from solitary pursuits to ones you can share with a friend or two. Feeling young again has never been so easy!

Marsden's Book of Movement Disorders Ivan Donaldson

2012-03-29 This book represents the final work of the late Professor C. David Marsden, who was the most influential figure in the field of movement disorders, in terms of his contributions to both research and clinical practice, in the modern era. It was conceived and written by David Marsden and his colleague at the Institute of Neurology, Prof.

Ivan Donaldson. It was their intention that this would be the most comprehensive book on movement disorders and also that it would serve as the 'clinical Bible' for the management of these conditions. It provides a masterly survey of the entire topic, which has been made possible only by vast laboratory and bedside experience.

Marsden's Book of Movement Disorders covers the full breadth of movement disorders, from the underlying anatomy and understanding of basal ganglia function to the diagnosis and management of specific movement disorders, including the more common conditions

such as Parkinson's Disease through to rare, and very rare conditions such as Niemann-Pick disease. Chapters follow a structured format with historical overviews, definitions, clinical features, differential diagnosis, investigations and treatment covered in a structured way. It is extensively illustrated with many original photographs and diagrams of historical significance. Among these illustrations are still images of some original film clips of some of Dr. Marsden's patients published here for the first time. Comprehensively referenced and updated by experts from the Institute of Neurology at Queen Square, this book is a

valuable reference for, not just movement disorder specialists and researchers, but also for clinicians who care for patients with movement disorders.

de Swiet's Medical Disorders in Obstetric Practice Raymond Powrie 2010-12-17 Pregnancy affects the physiology of women as their bodies adapt to the growing life within them; but how does this affect how you manage general, or pre-existing medical complaints? How do you differentiate the effects of pregnancy from genuine medical conditions? What are the effects of the 'standard' treatments on the growing

fetus? What about breastfeeding? In this brand-new edition of de Swiet's Medical Disorders in Clinical Practice, expert physicians present the best evidence and practical wisdom to guide you and your patients through their pregnancy and illness, to a successful birth and early motherhood. Using a combination of algorithms, years of experience and an evidence-based approach, this book will help you to: Diagnose difficult to identify conditions during pregnancy Effectively prescribe for pregnant and lactating women Overcome the challenges of imaging, anesthesia and critical care for

pregnant women de Swiet's assists you in navigating the many challenges pregnancy presents for both the patient and physician.

Mergent International Manual
2003

After Ethnos Tobias Rees
2018-11-23 For most of the twentieth century,

anthropologists understood themselves as ethnographers.

The art of anthropology was the fieldwork-based description of faraway others—of how social structures secretly organized the living-together of a given society, of how a people had

endowed the world surrounding them with cultural meaning. While the poetics and politics of anthropology have changed dramatically over the course of a century, the basic equation of anthropology with ethnography—as well as the definition of the human as a social and cultural being—has remained so evident that the possibility of questioning it occurred to hardly anyone. In *After Ethnos* Tobias Rees endeavors to decouple anthropology from ethnography—and the human from society and culture—and explores the manifold possibilities of practicing a question-based rather than an

answer-based anthropology that emanates from this decoupling. What emerges from Rees's provocations is a new understanding of anthropology as a philosophically and poetically inclined, fieldwork-based investigation of what it could mean to be human when the established concepts of the human on which anthropology has been built increasingly fail us.

[The Artist's Guide to Human Anatomy](#) Gottfried Bammes

2004-01-01 Presents a guide to human anatomy and its depiction in art, with advice on drawing various poses and motions.

Climate and Conservation Jodi

A. Hilty 2012-05-29 Climate and Conservation presents case studies from around the world of leading-edge projects focused on climate change adaptation-regional-scale endeavors where scientists, managers, and practitioners are working to protect biodiversity by protecting landscapes and seascapes in response to threats posed by climate change. The book begins with an introductory section that frames the issues and takes a systematic look at planning for climate change adaptation. The nineteen chapters that follow examine particular case studies in every part of the world, including landscapes and

seascapes from equatorial, temperate, montane, polar, and marine and freshwater regions. Projects profiled range from North American grasslands to boreal forests to coral reefs to Alpine freshwater environments. Chapter authors have extensive experience in their respective regions and are actively engaged in working on climate-related issues. The result is a collection of geographical case studies that allows for effective cross-comparison while at the same time recognizing the uniqueness of each situation and locale. Climate and Conservation offers readers tangible, place-based examples of projects designed to protect

large landscapes as a means of conserving biodiversity in the face of the looming threat of global climate change. It informs readers of how a diverse set of conservation actors have been responding to climate change at a scale that matches the problem, and is an essential contribution for anyone involved with large-scale biodiversity conservation.

US Troops in Europe Phil

Williams 2021-01-27 This book, first published in 1984, analyses the contribution of the American military presence to the security of Western Europe; examines the advantages and shortcomings of proposals for strengthening NATO's conventional capacity; and considers the consequences to the Cold War balance of power of a reduction in the American troop contingent.

World Report 2018 Human

Rights Watch 2018-01-30 The human rights records of more than ninety countries and territories are put into

perspective in Human Rights Watch's signature yearly report.

Reflecting extensive

investigative work undertaken in 2016 by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

WHO Recommendations on Intrapartum Care for a Positive Childbirth Experience World

Health Organization 2018-06-25

This up-to-date, comprehensive and consolidated guideline on essential intrapartum care

brings together new and existing WHO recommendations that, when delivered as a package, will ensure good-quality and evidence-based care irrespective of the setting or level of health care. The recommendations presented in this guideline are neither country nor region specific and acknowledge the variations that exist globally as to the level of available health services within and between countries. The guideline highlights the importance of woman-centered care to optimize the experience of labor and childbirth for women and their babies through a holistic, human rights-based approach. It introduces a global

model of intrapartum care, which takes into account the complexity and diverse nature of prevailing models of care and contemporary practice. The recommendations in this guideline are intended to inform the development of relevant national- and local-level health policies and clinical protocols. Therefore, the target audience includes national and local public health policy-makers, implementers and managers of maternal and child health programs, health care facility managers, nongovernmental organizations (NGOs), professional societies involved in the planning and management of maternal and

child health services, health care professionals (including nurses, midwives, general medical practitioners and obstetricians) and academic staff involved in training health care professionals.

Moments of Grace Laurie

Blefeld 2018-04-18 Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a

stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."-Gunilla Norris, author of *Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full Practices* "Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and

through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword

Forest governance by indigenous and tribal peoples

Food and Agriculture Organization of the United Nations 2021-03-25 The document summarizes the report that, based on a review of more than 250 studies, demonstrates the importance and urgency of climate action to protect the forests of the indigenous and tribal territories of Latin America as well as the indigenous and tribal peoples who protect them. These

territories contain about a third of the continent's forests. That's 14% of the carbon stored in tropical forests around the world; These territories are also home to an enormous diversity of wild fauna and flora and play a key role in stabilizing the local and regional climate. Based on an analysis of the approaches that have proven effective in recent decades, a set of investments and policies is proposed for adoption by climate funders and government decision-makers in collaboration with indigenous and tribal peoples. These measures are grouped into five main categories: i) strengthening of collective territorial rights; ii)

compensate indigenous and tribal communities for the environmental services they provide; iii) facilitate community forest management; iv) revitalize traditional cultures and knowledge; and v) strengthen territorial governance and indigenous and tribal organizations. Preliminary analysis suggests that these investments could significantly reduce expected carbon emissions at a low cost, in addition to offering many other environmental and social benefits.

Tivoli Integration Scenarios

Redbooks Tivoli Integration Scenarios Team IBM

2011-01-11 This IBM®

Redbooks® publication provides a broad view of how Tivoli® system management products work together in several common scenarios. You must achieve seamless integration for operations personnel to work with the solution. This integration is necessary to ensure that the product can be used easily by the users.

Product integration contains multiple dimensions, such as security, navigation, data and task integrations. Within the context of the scenarios in this book, you see examples of

these integrations. The scenarios implemented in this book are largely based on the input from the integration team, and several clients using IBM products. We based these scenarios on common real-life examples that IT operations often have to deal with. Of course, these scenarios are only a small subset of the possible integration scenarios that can be accomplished by the Tivoli products, but they were chosen to be representative of the integration possibilities using the Tivoli products. We discuss these implementations and benefits that are realized by these integrations, and also provide

sample scenarios of how these integrations work. This book is a reference guide for IT architects and IT specialists working on integrating Tivoli products in real-life environments.

Community Seed Banks Ronnie Vernooy 2015-05-15

Community seed banks first appeared towards the end of the 1980s, established with the support of international and national non-governmental organizations. This book is the first to provide a global review of their development and includes a wide range of case studies. Countries that

pioneered various types of community seed banks include Bangladesh, Brazil, Ethiopia, India, Nepal, Nicaragua, the Philippines and Zimbabwe. In the North, a particular type of community seed bank emerged known as a seed-savers network. Such networks were first established in Australia, Canada, the UK and the USA before spreading to other countries. Over time, the number and diversity of seed banks has grown. In Nepal, for example, there are now more than 100 self-described community seed banks whose functions range from pure conservation to commercial seed production. In Brazil,

community seed banks operate in various regions of the country. Surprisingly, despite 25 years of history and the rapid growth in number, organizational diversity and geographical coverage of community seed banks, recognition of their roles and contributions has remained scanty. The book reviews their history, evolution, experiences, successes and failures (and reasons why), challenges and prospects. It fills a significant gap in the literature on agricultural biodiversity and conservation, and their contribution to food sovereignty and security.

Speaker's Manual American

Revolution Bicentennial Administration 1976
European Anthropologies Andrés Barrera-González 2017-08-01 In what ways did Europeans interact with the diversity of people they encountered on other continents in the context of colonial expansion, and with the peasant or ethnic 'Other' at home? How did anthropologists and ethnologists make sense of the mosaic of people and societies during the nineteenth and twentieth centuries, when their disciplines were progressively being established in academia? By assessing the diversity of European intellectual histories within sociocultural anthropology, this

volume aims to sketch its intellectual and institutional portrait. It will be a useful reading for the students of anthropology, ethnology, history and philosophy of science, research and science policy makers.

African Futures Brian Goldstone

2017-01-31 Civil wars, corporate exploitation, AIDS, and Ebola—but also democracy, burgeoning cities, and unprecedented communication and mobility: the future of Africa has never been more uncertain. Indeed, that future is one of the most complex issues in contemporary anthropology, as evidenced by the incredible wealth of ideas offered in this

landmark volume. A consortium comprised of some of the most important scholars of Africa today, this book surveys an intellectual landscape of opposed perspectives in order to think within the contradictions that characterize this central question: Where is Africa headed? The experts in this book address Africa's future as it is embedded within various social and cultural forms emerging on the continent today: the reconfiguration of the urban, the efflorescence of signs and wonders and gospels of prosperity, the assorted techniques of legality and illegality, lotteries and Ponzi schemes, apocalyptic visions, a

yearning for exile, and many other phenomena. Bringing together social, political, religious, and economic viewpoints, the book reveals not one but multiple prospects for the future of Africa. In doing so, it offers a pathbreaking model of pluralistic and open-ended thinking and a powerful tool for addressing the vexing uncertainties that underlie so many futures around the world.

Hypertension in Pregnancy

Alexander Heazell 2010-08-26

Hypertensive disorders are among the most common medical complications of pregnancy, with an incidence of approximately 6-10%. This spectrum of conditions includes

essential hypertension, pre-eclampsia and HELLP syndrome. For patients with pre-existing hypertension, management ideally commences prior to conception, and continues through pregnancy to the postnatal period. This book provides information on the evidence-based management of women with hypertension throughout pregnancy, supported by important background information on the etiology, risk-factors and pathophysiology of these disorders. Illustrated with accompanying algorithms, tables and lists for quick reference on diagnostic criteria, drugs and side-effects, this

book will help clinicians rapidly gain access to the information they need to care for these patients. This will be of interest to all grades of obstetric trainees as well as specialists, obstetric anesthetists and anesthetic trainees, midwives and maternal-fetal physicians.

The Land Within Pedro García Hierro 2005 By describing the fabric of relationships indigenous peoples weave with their environment, *The Land Within* attempts to define a more precise notion of indigenous territoriality. A large part of the work of titling the South American indigenous territories may now be completed but this book aims to

demonstrate that, in addition to management, these territories involve many other complex aspects that must not be overlooked if the risk of losing these areas to settlers or extraction companies is to be avoided. Alexandre Surralls holds a doctorate in anthropology from the School for Higher Studies in Social Sciences and is a researcher on the staff of the National Centre for Scientific Research. Pedro Garca Hierro is a lawyer from Madrid Complutense University and the Pontifical Catholic University of Peru. He has worked with various indigenous organizations, on issues related to the

identification and development of collective rights and the promotion of intercultural democratic reforms.

Masa Giselle Mann 2002-02

Designed for use in bedside evaluations of patients referred for swallowing function assessment. The Mann

Assessment of Swallowing

Ability is a quick and reliable tool. It is an efficient and cost-effective assessment tool

allowing clinicians to evaluate patients and determine which ones are true candidates for

more involved instrumental evaluation. This tool may also be utilized for monitoring

swallowing skills over time. The manual will include a technical

manual as well as step-by-step user's guide. The user's guide section will also include information on how to use the instrument for outcomes data collection, monitoring patient status, and other clinical applications other than its primary purpose.

A Practical Manual of Diabetes

in Pregnancy David McCance

2017-09-20 The revised and updated second edition of a multidisciplinary, evidence-based clinical guide for the care of pregnant women with

diabetes The second edition of A Practical Manual of Diabetes in Pregnancy offers a wealth of new evidence, new material, new technologies, and the most

current approaches to care. With contributions from a team of international experts, the manual is highly accessible and comprehensive in scope. It covers topics ranging from preconception to postnatal care, details the risks associated with diabetic pregnancy, and the long-term implications for the mother and baby. The text also explores recent controversies and examines thorny political pressures. The manual's treatment recommendations are based on the latest research to ensure pregnant women with diabetes receive the best possible care. The text takes a multi-disciplinary approach that reflects best practice in the

treatment of diabetes in pregnancy. The revised second edition includes: New chapters on the very latest topics of interest Contributions from an international team of noted experts Practical, state-of-the-art text that has been fully revised with the latest in clinical guidance Easy-to-read, accessible format in two-color text design Illustrative case histories, practice points, and summary boxes, future directions, as well as pitfalls and what to avoid boxes Multiple choice questions with answers in each chapter Comprehensive and practical, the text is ideal for use in clinical settings for reference by

all members of the multi-disciplinary team who care for pregnant women with diabetes. The manual is also designed for learning and review purposes by trainees in endocrinology, diabetes, and obstetrics.

Cloherty and Stark's Manual of Neonatal Care Anne R. Hansen

2016-10-11 Concise and easy to read, this popular manual has provided a practical approach to the diagnosis and medical management of problems in the newborn through seven outstanding editions. The Eighth Edition of Cloherty and Stark's Manual of Neonatal Care maintains that tradition of excellence, offering NICU physicians, neonatal-

perinatal fellows, residents, and neonatal nurse practitioners quick access to key clinical information, fully updated to reflect recent advances in the field. Written in an easy-access outline format, this extensively revised edition covers current, practical approaches to the evaluation and management of routine and complex conditions encountered in the fetus and the newborn.

Rainforest Mafias Cesar Muñoz

Acebes 2019 "This report documents how illegal logging by criminal networks and resulting forest fires are connected to acts of violence and intimidation against forest defenders and the state's failure

to investigate and prosecute these crimes."--Publisher website, viewed September 27, 2019.

Polar Manual Naval Medical School (U.S.). Dept. of Cold Weather Medicine 1961

The Mask and the Flag Paolo Gerbaudo 2017-05-15 From the Arab Spring to the Spanish Indignados, from Occupy Wall Street in New York to Nuit Debout in Paris, contemporary protest bears the mark of citizenism, a libertarian and participatory brand of populism which appeals to ordinary citizens outraged at the arrogance of political and financial elites in the wake of the Great Recession. This book

draws on 140 interviews with activists and participants in occupations and demonstrations to explore the new politics nurtured by the 'movement of the squares' of 2011-16 and its reflection of an exceptional phase of crisis and social transformation. Gerbaudo demonstrates how, in waging a unifying struggle against a perceived Oligarchy, today's movements combine the neo-anarchist ethos of horizontality and leaderlessness inherited from the anti-globalisation movement, and a resurgent populist demand for full popular sovereignty and the reclamation of citizenship rights. He analyses the manifestation of

this ideology through the signature tactics of these upheavals, including protest camps in public squares, popular assemblies and social media activism. And he charts its political ramifications from Podemos in Spain to Bernie Sanders in the US, revealing how the central square occupations have been foundational to current movements for radical democracy worldwide.

How to Fix Everything For Dummies Gary Hedstrom

2011-03-04 The fun and easy way to repair anything and everything around the house For anyone who's ever been frustrated by repair shop rip-

offs, this guide shows how to troubleshoot and fix a wide range of household appliances- lamps, vacuum cleaners, washers, dryers, dishwashers, garbage disposals, blenders, radios, televisions, and even computers. Packed with step-by-step illustrations and easy-to-follow instructions, it's a must-have money-saver for the half of all homeowners who undertake do-it-yourself projects.

Antistatic Sprays National Aeronautics and Space Adm Nasa 2018-10-25 Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e.,

outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate

however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center
Linguistic Fieldwork C. Bower
2015-02-10 Linguistic Fieldwork offers practical guidance on areas such as applying for funding, the first session on a

new language, writing up the data and returning materials to communities. This expanded second edition provides new content on the results of research, on prosody elicitation,

on field experiment design, and on working in complex syntax.

Indigenous knowledge for climate change assessment and adaptation Nakashima, Douglas

2018-12-31
