The First Man Albert Camus 2012-08-08 Camus tells the story of Jacques Cormery, a boy who lived a life much like his own. Camus summons up the sights, sounds and textures of a childhood circumscribed by poverty and a father's death yet redeemed by the austere beauty of Algeria and the boy's attachment to his nearly deaf-mute mother. Published thirty-five years after its discovery amid the wreckage of the car accident that killed Camus, *The First Man* is the brilliant consummation of the life and work of one of the 20th century's greatest novelists. Translated from the French by David Hapgood. "The First Man is perhaps the most honest book Camus ever wrote, and the most sensual...Camus is...writing at the depth of his powers...It is a work of genius."--The New Yorker

"Fascinating...The First Man helps put all of Camus's work into a clearer perspective and brings into relief what separates him from the more militant literary personalities of his day...Camus's voice has never been more personal."--New York Times Book Review

The Sabbath World Judith Shulevitz 2011-04-05 What is the Sabbath, anyway? The holy day of rest? The first effort to protect the rights of workers? A smart way to manage stress in a world in which computers never get turned off and work never comes to an end? Or simply an oppressive, outmoded rite? In *The Sabbath World*, Judith Shulevitz explores the Jewish and Christian day of rest, from its origins in the ancient world to its complicated observance in the modern one. Braiding ideas together with memories, Shulevitz delves into the legends, history, and philosophy that have grown up around a custom that has lessons for all of us, not just the religious. The shared day of nonwork has built communities, sustained cultures, and connected us to the memory of our ancestors and to our better selves, but it has also aroused as much resentment as love. *The Sabbath World* tells this surprising story together with an account of Shulevitz's own struggle to keep this difficult, rewarding day.

Indian Summer Alex von Tunzelmann 2012-10-25 The stroke of midnight on 15 August 1947 liberated 400 million Indians from the British Empire. One of the defining moments of world history had been brought about by a tiny number of people, including Jawaharlal Nehru, the fiery prime minister-to-be; Gandhi, the mystical figure who enthralled a nation; and Louis and Edwina Mountbatten, the glamorous but unlikely couple who had been dispatched to get Britain out of India without delay. Within hours of the midnight chimes, however, the two new nations of India and Pakistan would descend into anarchy and terror. *INDIAN SUMMER* depicts the epic sweep of events that ripped apart the greatest empire the world has ever seen, and reveals the secrets of the most powerful players on the world stage: the Cold War conspiracies, the private deals, and the intense and clandestine love affair between the wife of the last viceroy and the first prime minister of free India. With wit, insight and a sharp eye for detail, Alex von Tunzelmann relates how a handful of people changed the world for ever.

What Is the What Dave Eggers 2009-02-24 What Is the What is the story of Valentino Achak Deng, a refugee in war-ravaged southern Sudan who flees from his village in the mid-1980s and becomes one of the so-called Lost Boys. Valentino's travels bring him in contact with enemy soldiers, with liberation rebels, with hyenas and lions, with disease and starvation, and with deadly murahaleen (militias on horseback)-the same sort who currently terrorize Darfur. Eventually Deng is resettled in the United States with almost 4000 other young Sudanese men, and a very different struggle begins. Based closely on true experiences, *What Is the What* is heartbreaking and arresting, filled with adventure, suspense,

tragedy, and, finally, triumph.

Bata Thomas John Bata 1990

Memoir Ben Yagoda 2009-11-12 From a critically acclaimed cultural and literary critic, a definitive history and analysis of the memoir. From Saint Augustine's Confessions to Augusten Burroughs's Running with Scissors, from Julius Caesar to Ulysses Grant, from Mark Twain to David Sedaris, the art of memoir has had a fascinating life, and deserves its own biography. Cultural and literary critic Ben Yagoda traces the memoir from its birth in early Christian writings and Roman generals' journals all the way up to the banner year of 2007, which saw memoirs from and about dogs, rock stars, bad dads, good dads, alternadads, waitresses, George Foreman, Iranian women, and a slew of other illustrious persons (and animals). In a time when memoir seems ubiquitous and is still highly controversial, Yagoda tackles the autobiography and memoir in all its forms and iterations. He discusses the fraudulent memoir and provides many examples from the past and addresses the ramifications and consequences of these books. Spanning decades and nations, styles and subjects, he analyzes the hallmark memoirs of the Western tradition: Rousseau, Ben Franklin, Henry Adams, Gertrude Stein, Edward Gibbon, among others. Yagoda also describes historical trends, such as Native American captive memoirs, slave narratives, courtier dramas (where one had to pay to NOT be included in a courtesan's memoir). Throughout, the idea of memory and truth, how we remember and how well we remember lives, is intimately explored. Yagoda's elegant examination of memoir is at once a history of literature and taste, and an absorbing glimpse into what humans find interesting--one another.

Letters for a Nation Jawaharlal Nehru 2015-10-25 In October 1947, two months after he became independent India's first prime minister, Jawaharlal Nehru wrote the first of his fortnightly letters to the heads of the country's provincial governments—a tradition he kept until a few months before his death. This carefully selected collection covers a range of themes and subjects, including citizenship, war and peace, law and order, governance and corruption, and India's place in the world. The letters also cover momentous world events and the many crises the country faced during the first sixteen years after Independence. Visionary, wise and reflective, these letters are of great contemporary relevance for the guidance they provide for our current problems and predicaments.

A Bunch of Old Letters Written Mostly to Jawaharlal Nehru and Some Written by Him 1960

The Mushroom at the End of the World Anna Lowenhaupt Tsing 2017-09-19 Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

Hour of the Witch Chris Bohjalian 2021-05-04 NEW YORK TIMES BEST SELLER • From the acclaimed author of *The Flight Attendant*:

"Historical fiction at its best.... The book is a thriller in structure, and a real page-turner, the ending both unexpected and satisfying" (Diana Gabaldon, bestselling author of the *Outlander* series, *The Washington Post*). A young Puritan woman—faithful, resourceful, but afraid of the demons that dog her soul—plots her escape from a violent marriage in this riveting and propulsive novel of historical suspense. Boston, 1662. Mary Deerfield is twenty-four-years-old. Her skin is porcelain, her eyes delft blue, and in England she might have had many suitors. But here in the New World, amid this community of saints, Mary is the second wife of Thomas Deerfield, a man as cruel as he is powerful. When Thomas, prone to drunken rage, drives a three-tined fork into the back of Mary's hand, she resolves that she must divorce him to save her life. But in a world where every neighbor is watching for signs of the devil, a woman like Mary—a woman who harbors secret desires and finds it difficult to tolerate the brazen hypocrisy of so many men in the colony—soon becomes herself the object of suspicion and rumor. When tainted objects are discovered buried in Mary's garden, when a boy she has treated with herbs and simples dies, and when their servant girl runs screaming in fright from her home, Mary must fight to not only escape her marriage, but also the gallows. A twisting, tightly plotted novel of historical suspense from one of our greatest storytellers, *Hour of the Witch* is a timely and terrifying story of socially sanctioned brutality and the original American witch hunt.

The History of Love: A Novel Nicole Krauss 2006-05-17 ONE OF THE MOST LOVED NOVELS OF THE DECADE. A long-lost book reappears, mysteriously connecting an old man searching for his son and a girl seeking a cure for her widowed mother's loneliness. Leo Gursky taps his radiator each evening to let his upstairs neighbor know he's still alive. But it wasn't always like this: in the Polish village of his youth, he fell in love and wrote a book...Sixty years later and half a world away, fourteen-year-old Alma, who was named after a character in that book, undertakes an adventure to find her namesake and save her family. With virtuosic skill and soaring imaginative power, Nicole Krauss gradually draws these stories together toward a climax of "extraordinary depth and beauty" (Newsday).

150 Glimpses of the Beatles Craig Brown 2020-10-13 Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." —Alan Johnson, *The Spectator* Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan

Show in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? *150 Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles' role in the making of the sixties and of music as we know it.

About Time: A History of Civilization in Twelve Clocks David Rooney 2021-08-17 One of Smithsonian Magazine's Ten Best History Books of 2021 A captivating, surprising history of timekeeping and how it has shaped our world. For thousands of years, people of all cultures have made and used clocks, from the city sundials of ancient Rome to the medieval water clocks of imperial China, hourglasses fomenting revolution in the Middle Ages, the Stock Exchange clock of Amsterdam in 1611, Enlightenment observatories in India, and the high-precision clocks circling the Earth on a fleet of GPS satellites that have been launched since 1978. Clocks have helped us navigate the world and build empires, and have even taken us to the brink of destruction. Elites have

used them to wield power, make money, govern citizens, and control lives—and sometimes the people have used them to fight back. Through the stories of twelve clocks, *About Time* brings pivotal moments from the past vividly to life. Historian and lifelong clock enthusiast David Rooney takes us from the unveiling of al-Jazari's castle clock in 1206, in present-day Turkey; to the Cape of Good Hope observatory at the southern tip of Africa, where nineteenth-century British government astronomers moved the gears of empire with a time ball and a gun; to the burial of a plutonium clock now sealed beneath a public park in Osaka, where it will keep time for 5,000 years. Rooney shows, through these artifacts, how time has been imagined, politicized, and weaponized over the centuries—and how it might bring peace. Ultimately, he writes, the technical history of horology is only the start of the story. A history of clocks is a history of civilization.
