*Introduction to Psalms* Hermann Gunkel 2020-02-05 Hermann Gunkel's commentary on Psalms (Die Psalmen,

HKAT)—considered by many to be his magnum opus—was published in 1926. But he was unable to complete his final work on the Psalms. The severe suffering of the final months of his life forced him to hand over his incomplete manuscript, at Christmastime 1931, to his pupil Joachim Begrich. Gunkel died on 11 March 1932. Begrich put the final touches on the organization of Gunkel's last work on Psalms, and it was published in 1933 as *Einleitung in die Psalmen: die Gattungen der religiösen Lyrik Israels*. As with much of Gunkel's other work, the influence of *Einleitung in die Psalmen* on the study of

the Psalms, Hebrew poetry, and, indeed, the whole realm of Old Testament literature, lyric, and cult, as already noted, "can scarcely be overestimated."

**The Spiritual Churches of New Orleans** Claude F. Jacobs 2001

The New Orleans Spiritual churches constitute a distinctive African-American belief system.

Influenced by Catholicism, Pentecostalism, Spiritualism, and Voodoo, the group is a New World syncretic faith, similar to Espiritismo, Santería, and Umbanda. The Spiritual Churches of New Orleans combines a historical account of

the emergence of this religion with careful ethnographic description of current congregations. At the same time, text and photographs eloquently convey the ecstasy at the heart of the Spiritual experience. The Spiritual churches began in the 1920s as a women's movement. Men later assumed leadership in an effort to legitimate the group within the New Orleans religious community and form associations with Spiritual churches elsewhere in the United States. Unlike earlier researchers, who treated practices in the churches as expressions of black folk traditions, the authors see

Spiritual ritual not as based on magic, but as the way the sacred is acted out within an African-American aesthetic. During worship, members may be filled by the Holy Spirit, as in Pentecostal churches, or "entertain" spirits or spirit guides, as in Spiritualism or Voodoo. Prophecy and healing are presented as the markers of this faith, and the Native American figure Black Hawk as a major symbol of empowerment. Based on extensive interviews with church members, years of participant observation, and careful research in documentary sources, this book achieves rigorous conceptual clarity in a

straightforward, engaging style.

*Selling Jesus* Douglas D.  
Webster 2009-08-01 It's one  
thing to market cars and  
deodorant and hamburgers. It's  
another thing, says Doug  
Webster, to market Jesus and  
the gospel. Standing up to a  
spate of books and seminars  
that urge churches to model  
their mission on Madison  
Avenue methods, Webster  
sounds an urgently needed  
wake-up alarm. *Selling Jesus* is

a hard-hitting book that shows  
how Jesus is more than a  
product to be hawked, how  
seekers are more than a matter  
of meeting felt needs. But  
*Selling Jesus* doesn't merely  
challenge. It moves beyond  
penetrating criticism to the next  
step, suggesting faithful and  
powerful alternatives to  
marketing the church. *Selling

those who are beginning to  
wonder if evangelism and  
missions really aren't  
synonymous with product  
promotion.

Speaking in Tongues Felicitas D. Goodman 2008-04-15

Speaking in tongues, or glossolalia, is practiced in many different religions around the world. Dismissed as meaningless gibberish by some observers, it has been the subject of only a few fragmentary studies. The work of Felicitas D. Goodman represents the first cross-cultural analysis of this enigmatic behavior, and she brings to her research an extensive background in linguistics and anthropology. Dr. Goodman's fieldwork included living with apostolic congregations in Mexico City, in the Yucatan with Maya Indians,

and visits with a congregation in Hammond, Indiana. Her observations were preserved on a remarkable collection of sound recordings and films. For this book she presents a selection of conversion stories that highlights the personality structure and experiences of the speakers. A detailed analysis of the phonological and suprasegmental features of the recorded utterances show a surprising cross-cultural agreement. This led Goodman to believe that glossolalists speak the way they do because their speech behavior is modified in a particular mental state, often termed trance, into which they place themselves. In

this light the glossolalia utterance is seen as an artifact of a hyperaroused mental state, or, in Chomskyan terms, as the surface structure of a nonlinguistic deep structure, that of the altered state of consciousness. Goodman describes the hyperaroused mental state as a neurophysiological phenomenon, as well as the associated patterns of movement, and the problems of waking from it. Goodman's diachronic approach yielded equally surprising data about the changes and the waning of the behavior over time. But, as she observes, "we have barely touched the edge of a very

large area of inquiry." Her fascinating study opens a number of new avenues of research for anthropologists, such as the study of physiological states accompanying linguistic and ritual behavior.

render my story as simple as

possible, in fact, to give a vivid

Cristiana, trataré de defender la posición histórica que la iglesia ha sostenido por muchos años.

Esta no es una batalla por tradiciones humanas ni tampoco religiosas. Y oro al Señor que mis lectores no la perciban como una defensa de mis propios gustos personales.

Si la Escritura tiene verdades fundamentales acerca de la música y su uso en la

alabanza, y si nosotros aceptamos que la Biblia es la palabra infalible e inspirada de

Dios, entonces nos encontraremos al final, en unidad de propósito.
