Pirsig 1984 Looks at the meaning of professional responsibility and the underlying concepts and criticisms of the legal profession, including the codes of professional conduct, professional organizations, and the composition of the bar.

Reviews the regulation of the practice of law, the admission to the bar, and the unauthorized practice of law. Includes the confidentiality of information and underlying policies. Discusses conflict of interest and disqualification regarding a lawyer's own interest, multiple clients' interests, and a third person's interests.

*Bankruptcy and Creditor's Rights* James J. White 1985

**The Mind of the Censor and the Eye of the Beholder** Robert Corn-Revere 2021-11-04 Beginning in the nineteenth century with Anthony Comstock, America's 'censor in chief,' The Mind of the Censor and the Eye of the Beholder explores how censors operate and why they wore out their welcome in society at large. This book explains how the same tactics were tried and eventually failed in the twentieth century, with efforts to censor music, comic books, television, and other forms of popular entertainment. The historic examples illustrate not just the mindset and tactics of censors, but why they are the ultimate counterculture warriors and why, in free societies, censors never occupy the moral high ground. This book is for anyone who wants to know more about why freedom of speech is important and how protections for free expression became part of the American identity.

**Contract Law in Modern Society** John Howard Jackson 1980

**Electronic Media Law and Regulation** Kenneth C. Creech 2013-07-24 Electronic Media Law and Regulation is a case-based law text that provides students with direct access to case law as well as the context in which to understand its meaning and impact. The text overviews the major legal and regulatory issues facing broadcasting, cable, and developing media in today's industry. Presenting information from major cases, rules, regulations, and legal documents in a concise and readable form, this book helps current and prospective media professionals understand the complex realm of law and regulation. Students will learn how to avoid common legal pitfalls and anticipate situations that may have potential legal consequences. This sixth edition provides annotated cases with margin notes, and new chapters address such timely issues as media ownership, freedom of information, entertainment rights, and cyber law.

**Cases and Materials on Modern Property Law** Jon W. Bruce 1984

**Global Internet Law** Michael Rustad 2016-01-09 Global Internet Law Hornbook provides students, practitioners, judges, and policymakers with a comprehensive examination of the most important concepts and methods of this rapidly evolving field of law. Each chapter is a detailed examination of cases, statutes, industry standards, norms, as well as, academic commentaries from around the world. While the emphasis is on U.S. developments, each chapter compares U.S. to EU regulations, directives, and conventions, as well as, other cross-border Internet law developments from diverse legal systems around the world. This timely and up-to-date Hornbook comprehensively examines Internet technologies, Internet governance, private international law (jurisdiction, choice of law, forum selection and enforcement of judgment), online contacts (mass market, cloud computing service level agreements, social media terms of use software licensing, and e-commerce terms of service), global consumer protection in cyberspace (FTC, state and foreign developments), cybertorts (including CDA Section 230 developments, Internet security, information torts, and negligent enablement), Internet-related privacy (including the EU Data Directive) cybercrimes (including state, federal and international developments), privacy (including extensive coverage of the Data Protection Directive and the General Data Protection Regulation) content regulations (U.S. vs. foreign), copyrights in cyberspace, trademarks and domain names, Internet-related trade secrets and patent law developments. Global Internet law is increasingly important for all lawyers, whether they are policymakers, transactional lawyers, or litigators. This Hornbook is organized around the major issues in each substantive and procedural area of law in the most accessible, contemporary, and effective manner. To help readers come to grips with the necessity of approaching the subject from a transnational perspective, this book surveys the best available U.S. and foreign cases, statutes, and commentaries covering global Internet Law developments.

**Cases and materials on water law** 1986

*Corporate Taxation and Taxation of Partnerships and Partners* Douglas A. Kahn 1985

**Foundational Principles of Contract Law** Melvin A. Eisenberg 2018-09-20 Foundational Principles of Contract Law not only sets out the principles and rules of contract law, it places more emphasis on what the principles and rules of contract law should be, based on policy, morality, and experience. A major premise of the book is that the best way to grasp contract law is to understand it from a critical perspective as an organic, dynamic subject. When contract law is approached in this way it is much easier to grasp and learn than when it is presented simply as a static collection of principles and rules. Professor Eisenberg covers almost all areas of contract law, including the enforceability of promises, remedies for breach of contract, problems of assent, form contracts, the effect of mistake and changed circumstances, interpretation, and problems of performance. Although the emphasis of the book is on the principles and rules of contract law, it also covers important theories in contract law, such as the theory of efficient breach, the theory of overreliance, the normative theory of contracts, formalism, and theories of contract interpretation.

**Principles of Legal Research** Kent C. Olson 2009 Principles of Legal Research will be published in June and available for fall 2009 class adoptions.

Principles of Legal Research is the long-awaited successor to the venerable How to Find the Law, 9th edition, thoroughly updated for the electronic age. The text provides encyclopedic yet concise coverage of research methods and resources using both free and commercial websites as well as printed publications. An introductory survey of research strategies is followed by chapters on the sources of U.S. law created by each branch of government, discussion of major secondary sources, and an overview of international and comparative law. Sample illustrations are included, and an appendix lists nearly 500 major treatises and looseleaf services by subject.

*Criminal Law* Phillip E. Johnson 1990

**Modern Legal Ethics** Charles W. Wolfram 1986 Authoritative coverage focuses on a lawyer's fiduciary responsibility. Text describes the legal profession's self-regulatory system and the professional codes that have emerged. Examines lawyers and the legal profession, including regulation and discipline.

Provides a detailed discussion of the client-lawyer relationship. Judges and the quality of justice are also addressed. Provides systematic examination of the issues covered in the 1969 Code of Professional Responsibility and the 1983 Model Rules of Professional Conduct.

**Public International Computer Network Law Issues** Henrik Stakemann Spang-Hanssen 2006

**The Articulate Attorney** Brian K. Johnson 2013 "Get your nose out of your notes, look your audience in the eye, and become the confident public speaker you've always wanted to be. Grab and hold your listeners' attention with skills you can depend on every time you speak. The Articulate Attorney: Public Speaking for Lawyers will make you a more self-assured, compelling communicator. Discover answers to these common questions: How do I channel nervous energy into dynamic delivery? What is a reliable way to remember what I want to say? How do I stop saying um and think in silence instead? Why is gesturing so important? What do I do with my hands? How can I make PowerPoint interactive? Based on more than 30 years of experience coaching lawyers, Brian K. Johnson and Marsha Hunter address the distinctive communication skills expected of attorneys. They offer practical, immediately useful solutions that integrate cutting-edge discoveries in human factors, linguistics, neuroscience, gesture studies, and sports psychology. These techniques will transform you into a more confident speaker, whether addressing colleagues in a conference room, counseling clients in a boardroom, or presenting a CLE in a ballroom"--Unedited summary from book cover.

*California law review* 2004

**Hornbook on Modern Communication Law** Harvey Zuckman 1999 The first comprehensive communications law treatise of the Information Age; keeps user up-to-date on the rapidly changing aspects of communications law.
