The Law and Governance of Decentralised Business Models Roger M Barker 2020-12-31 This book draws together themes in business model developments in relation to decentralised business models (DBMs), sometimes referred to as the 'sharing' economy, to systematically analyse the challenges to corporate and organisational law and governance. DBMs include business networks, the global supply chain, public-private

partnerships, the platform economy and blockchain-based enterprises. The law of organisational forms and governance has been slow in responding to changes, and reliance has been placed on innovations in contract law to support the business model developments. The authors argue that the law of organisations and governance can respond to changes in the phenomenon of decentralised business models driven by

transformative technology and new socio-economic dynamics. They argue that principles underlying the law of organisations and governance, such as corporate governance, are crucial to constituting, facilitating and enabling reciprocity, mutuality, governance and redress in relation to these business models, the wealth-creation of which subscribes to neither a firm nor market system, is neither hierarchical nor totally decentralised, and incorporates socio-economic elements that are often enmeshed with incentives and relations. Of interest to academics, policymakers and legal practitioners, this book offers proposals for new thinking in the law of organisation and governance to advance the possibilities of a new socio-economic future.

It's a proverbial battle of David versus Goliath. A senior government employee has been embroiled in a bitter battle against one of the country's largest financiers, Wesbank. His Story is mired in alleged fraud, corruption and misconduct. The Grahamstown High Court this week dismissed with costs an appeal by Wesbank, a division of FirstRand - for the third time - against earlier rulings made in favour of Mzukisi Ndara. In the pursuit for justice, Ndara has approached several high-ranking politicians, Parliament as the custodian of the country's laws, the Hawks and the courts. But 15 years into the battle, the matter has yet to be resolved. And some dockets containing vital evidence have gone missing. Ndara has now turned to the Director of Public Prosecutions as a last resort. - Long and Winding Road for Justice: Bulelwa Payi;

Cobra Deon Meyer 2014-10-07 A riveting thriller from the acclaimed "King of South African crime" and the author of *Blood Safari*: "Deon Meyer is one of the unsung masters" (Michael Connelly). Deon Meyer is a world-class writer whose page-turning thrillers probe the social and racial complexities of his native country. In *Cobra*, a famous English mathematician is kidnapped and his two bodyguards are killed at a guesthouse in the beautiful wine country outside Cape Town. It's clearly a professional hit, and the spent shell cases offer a chilling clue: each is engraved with the head of a spitting cobra. Meanwhile, in the city, a skilled thief is using his talents to put his sister through college. But he picks the wrong pocket, grabbing the

wallet of a young American woman delivering something very valuable and dangerous to South Africa. The thief not only becomes the target of the deadly hit man known as the Cobra, but unwittingly holds the key to stopping a deadly international threat. It's up to Captain Benny Griessel and his elite investigation team to find the pickpocket and track down the Cobra as the novel hurtles toward a brilliant, heart-stopping finale on the suburban commuter trains. "Mr. Meyer, the leading thriller writer in his native country, traffics in crime-novel situations familiar the world over: drunken cops, charming robbers, dangerous murderers, sudden violence—and sometimes, issues of race." —The Wall Street Journal
