In the land of Sempera, the rich control everything - even time. Ever since the age of alchemy and sorcery, hours, days and years have been extracted from blood and bound to iron coins. The rich live for centuries; the poor bleed themselves dry. Jules and her father are behind on their rent and low on hours. To stop him from draining himself to clear their debts, Jules takes a job at Everless, the grand estate of the cruel Gerling family. There, Jules encounters danger and temptation in the guise of the Gerling heir, Roan, who is soon to be married. But the web of secrets at Everless stretches beyond her desire, and the truths Jules must uncover will change her life for ever ... and possibly the future of time itself. 'Sara Holland is a fierce storyteller. An intoxicating blend of blood, secrets, and haunting mythology, Everless gives new and terrifying meaning to the phrase running out of time.' Management of Technology and Innovation in Japan Cornelius Herstatt 2006-02-23 What Makes this Book Unique? No crystal ball is required to safely predict, that in the future - even more than in the past - mastered innovativeness will be a primary criterion distinguishing s- cessful from unsuccessful companies. At the latest since Michael Porter’s study on the competitiveness of nations, the same criterion holds even for the evaluation of entire countries and national economies. Despite the innumerable number of p- lications and recommendations on innovation, competitive innovativeness is still a rare competency. The latest publication of UNICE - the European Industry - ganization representing 20 million large, midsize and small companies - speaks a clear language: Europe qualifies to roughly 60% (70%) of the innovation strength of the US (Japan). The record unemployment in many EU countries does not c- tradict this message. A main reason may be given by the fact that becoming an innovative organi- tion means increased openness towards the new and more tolerance towards risks and failures, both challenging the inherently difficult management art of cultural change. Further, lacking innovativeness is often related to legal and fiscal barriers which rather hinder than foster innovative activities. Yet another reason to explain Europe’s notorious innovation gap refers to insufficient financial R&D resources on the company as well as on the national level. As a result, for example, hi- ranking decisions on the level of the European Commission are taken to increase R&D expenditures in the European Union from roughly 2% to 3% of GNP.

The Witness of the Spirit. a Sermon Preached Before the University of Oxford. by Thomas Randolph, THOMAS. RANDOLPH 2018-04-21 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century. + + + + The below data was compiled from various identification fields in the bibliographic record of this title. Cliff Richard Steve Turner 2009-08 Cliff Richard has been Britain’s longest surviving and most consistent hit music maker. Starting his career as a rock ‘n’ roll threat to decent, upstanding citizens, he is now a friend to Royalty and prime ministers, a Knight, and a holder of the OBE. This book tells his story chronologically, through the voices of his friends, family, and colleagues including songwriters, film directors, managers, and agents—like listening in on a dinner party attended by most of the key people in his career. The stories reveal Cliff as seen by those closest to him and, in contrast to the many official publications, this book does not just include the flattering stories. The author’s probing questions have elicited extraordinary memories and observations, previously unheard by the public. Heavily illustrated with rare and interesting photographs of Cliff at work and play, this unique oral history will stand as a lasting testament to one of the most glorious careers in British show business.

Growing Together in Gratitude Barbara Rainey 2010-03-01 Whatever it is, He's still good. Children aren't born thankful. After all, adults struggle with thankfulness; we often feel we deserve good things. We're selfish and we want what we want. Yet we're often disappointed and think gratitude only applies to happy times. But God has made it clear that expressing gratitude is not optional or occasional-and that He takes our lack of faith, expressed in complaining, very seriously. Our circumstances leave us with choices: Will we focus on ourselves or God's character? Our short-sighted plan or His perfect, all-seeing faithfulness?

Life of Brine Phil Jarratt 2017-08-01 “In the not-so-small world of surfing, Phil Jarratt has seen it all. Luckily for us, he’s a fearless, funny storyteller, with a reporter’s unsentimental eye and an endearing modesty. But his memoir is, above all, a haunting self-portrait: the boy practising drop-knee cutbacks in his mother’s full-length mirror in mid-century Wollongong becomes a man.” William Finnegan, Pulitzer Prize-winning author of Barbarian Days Life of Brine is the memoir of Phil Jarratt, one of the world’s best-known chroniclers of surfing culture whose lifelong pursuit of the perfect wave has placed him in the midst of some of the most exciting moments in surfing’s modern history. Jarratt, who has courted controversy in his long career as a journalist, editor and documentarian, pulls no punches as he rides an exhilarating wave of nostalgia from the sixties up until now, through the heady days of drugs, alcohol and excess in Bali and Biarritz and other exotic locations in between. Filled with debauchery, reflection and insight, this is a book that will be devoured by surfers young and old.

Conceptions of the Desirable Asset One Immobilienentwicklungs AG 2010-12-13 Right in the heart of Graz, the second largest city in Austria, an entire city district had simply fallen into oblivion. Now, the industrial park of the former Reininghaus Brewery has been rediscovered. The new owners have taken up the search for answers: How, in future, do we wish to work and live? In his foreword, Clifford Pearson deputy editor of the Architectural record, writes: “I don’t know what Reininghaus will be like when people start moving there. I have no idea if it will be a model that other developers or community builders will want to follow. But I am impressed with the way its founders are approaching their task. They’re asking the right questions and talking to some fascinating people. They’re thinking and wondering before they start defining and designing. By doing so, they’ve gotten my attention.” The book presents the results of a research by structuring its content into: Life, Work, Urbanity and Education.
