We Want to Do More Than Survive - Bettina L. Love

2019-02-19

Winner of the 2020 Society of Professors of Education

Outstanding Book Award

Drawing on personal stories,

research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in

urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination, boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive*

introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

... and Justice for All? an American Illusion - Cheryl Kennedy 2017-01-14

Americans are living in the "Land of Make Believe." That's what Freedom Fighter, Rights Activist and Whistleblower, Cheryl A. Kennedy discovered while going through an amicable divorce in 2004 that turned into a horrible nightmare. She found herself fighting back against brutal gangs comprised of corrupt judges and attorneys, insurance company representatives and criminally-organized judicial regulatory agencies who fabricated numerous cover-ups. Since NO

oversight existed, she contacted NO Jurisdictional political Honest Service Fraud stooges that were running the State of California and New York, Congress, the F.B.I, the Judiciary and U.S. Department of Justice. She was granted a fraud ruling against a biased mediator, an attorney who misrepresented her. Because she was continually victimized and traumatized by cover-ups and violations of her rights, in 2008 she subpoenaed Governor Arnold Schwarzenegger to a jury trial that was denied (a violation of her Constitutional Rights) and later subpoenaed Attorney General Jerry Brown. This California Fraud on the Court crime led to an unlawful foreclosure of her private property in the State of New York. As her fight for justice continued, an increasing number of crooks, crimes and officials abused the power of their offices. Kennedy encountered other victims of Court crime and exposed their cases to assist them. The Government's and Courts' intent to destroy the lives of

Americans and their families trickled down from the Bush and Clinton Administrations and the usurped terroristic traitor DEFACTO Government infrastructure that has existed for many years in America. Educated by a lucrative Wall Street career, she explains the intentionally plotted and planned banking foreclosure derivative debacle (the 2008 Recession) and other deliberate failures. Our American Republic is being destroyed from within by government employees for the creation of the New World Order. Mainstream media facilitates election fraud and colludes with the Government and U.S. Court system. An American Holocaust exists because there is NO FREE PRESS while the media perpetuates Government Propaganda. President Barack Obama inherited this terrorism. For eight years, his theatrics, deception and rights violations; along with our complacent U.S. Military, have failed to restore our Republic, our Freedom and our

Inalienable Right to Life, Liberty and the Pursuit of Happiness guaranteed to All Americans by the U.S. Constitution, The Supreme Law of the Land. During her tribulations, Kennedy began practicing Nichiren Buddhism and traveled to India with the Tibetan Buddhists. Her journey is incredible. She has written this memoir to create an awareness among Americans. Her experiences will open your eyes to how And Justice for All IS an American Illusion.

Love, Freedom, and Evil -

Thaddeus J. Williams

2011-01-01

The defining premise of the Relational Free Will Defense is the claim that authentic love requires free will. Many scholars, including Gregory Boyd and Vincent Brümmer, champion this claim. Best-selling books, such as Rob Bell's Love Wins, echo that love "cannot be forced, manipulated, or coerced. It always leaves room for the other to decide." The claim that love requires free will has even found expression in

mainstream Hollywood films, including Frailty, Bruce Almighty, and The Adjustment Bureau. The analysis shows convincingly that the claim that authentic love requires free will, does not meet the criteria of consistency, compatibility with Scriptural sources, and the demands of concrete encounter with problems of moral evil.

Intimacy - Osho 2007-04-01

One of the greatest spiritual teachers of the twentieth century shares his wisdom about building loving relationships in Intimacy: Trusting Oneself and the Other. "Hit-and-run" relationships have become common in our society as it has grown more rootless, less tied to traditional family structures, and more accepting of casual sex. But at the same time, there arises an undercurrent of feeling that something is missing—a quality of intimacy. This quality has very little to do with the physical, though sex is

certainly one possible door. Far more important is a willingness to expose our deepest feelings and vulnerabilities, with the trust that the other person will treat them with care.

Ultimately, the willingness to take the risk of intimacy has to be grounded in an inner strength that knows that even if the other remains closed, even if that trust is betrayed, we will not suffer any permanent damage. In this gentle and compassionate guide, Osho takes his readers step-by-step through what makes people afraid of intimacy, how to encounter those fears and go beyond them, and what they can do to nourish themselves and their relationships to support more openness and trust. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India)

as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

Quest for Justice - J. Brian Benestad 1981

In recent years the bishops of the United States have taken public positions on numerous domestic and international issues and have articulated these positions not only in statements but in congressional testimony, meetings with government officials, and similar efforts. Yet relatively few Americans are aware of this activity. Typically, bishops' statements are published in pamphlet form and receive passing coverage in the secular press. Although the bishops' advocacy has been forthright and frequently

effective, it is not too widely recognized. This volume is intended as a record of the bishops' stands on social and political questions issued between 1966 and 1980. It contains statements on domestic and foreign policy by the USCC, the NCCB, the USCC Administrative Board, the NCCB/USCC Executive Committee, the USCC Committee on Social Development and World Peace, and the USCC Department of Social Development and World Peace.

Freedom From the Market - Mike Konczal 2021-02-02

The progressive economics writer redefines the national

conversation about American freedom “Mike Konczal [is] one of our most powerful advocates of financial reform, [a] heroic critic of austerity, and a huge resource for progressives.”—Paul Krugman Health insurance, student loan debt, retirement security, child care, work-life balance, access to home ownership—these are the issues driving America’s current political debates. And they are all linked, as this brilliant and timely book reveals, by a single question: should we allow the free market to determine our lives? In the tradition of Naomi Klein’s *The Shock Doctrine*, noted economic commentator Mike Konczal answers this question with a resounding no. *Freedom from the Market* blends passionate political argument and a bold new take on American history to reveal that, from the earliest days of the republic, Americans have defined freedom as what we keep free from the control of the market. With chapters on the history of the Homestead Act and land ownership, the

eight-hour work day and free time, social insurance and Social Security, World War II day cares, Medicare and desegregation, free public colleges, intellectual property, and the public corporation, Konczal shows how citizens have fought to ensure that everyone has access to the conditions that make us free. At a time when millions of Americans—and more and more politicians—are questioning the unregulated free market, Freedom from the Market offers a new narrative, and new intellectual ammunition, for the fight that lies ahead.

All About Love - bell hooks

2018-01-30

A New York Times bestseller and enduring classic, All About

Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural

paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

On the Other Side of Freedom - DeRay Mckesson 2018-09-04

"On the Other Side of Freedom reveals the mind and motivations of a young man who has risen to the fore of millennial activism through study, discipline, and conviction. His belief in a world that can be made better, one act at a time, powers his narratives and opens up a view on the costs, consequences, and rewards of leading a movement."--Henry Louis Gates, Jr. Named one of the best books of the year by NPR and Esquire Finalist for the Lambda Literary Award From the internationally recognized civil rights activist/organizer and host of the podcast Pod Save the People, a meditation on resistance, justice, and freedom, and an intimate portrait of a movement from the front lines. In August 2014, twenty-nine-year-old activist DeRay Mckesson stood with hundreds of others on the streets of Ferguson, Missouri, to push a message of justice and accountability. These protests, and others like them in cities across the country, resulted in the birth of the

Black Lives Matter movement. Now, in his first book, Mckesson lays down the intellectual, pragmatic, and political framework for a new liberation movement. Continuing a conversation about activism, resistance, and justice that embraces our nation's complex history, he dissects how deliberate oppression persists, how racial injustice strips our lives of promise, and how technology has added a new dimension to mass action and social change. He argues that our best efforts to combat injustice have been stunted by the belief that racism's wounds are history, and suggests that intellectual purity has curtailed optimistic realism. The book offers a new framework and language for understanding the nature of oppression. With it, we can begin charting a course to dismantle the obvious and subtle structures that limit freedom. Honest, courageous, and imaginative, On the Other Side of Freedom is a work brimming with hope. Drawing from his own experiences as an

activist, organizer, educator, and public official, Mckesson exhorts all Americans to work to dismantle the legacy of racism and to imagine the best of what is possible. Honoring the voices of a new generation of activists, *On the Other Side of Freedom* is a visionary's call to take responsibility for imagining, and then building, the world we want to live in.

The Exonerated - Jessica Blank
2004

What effect does it have on a person--a soul, a life--to have freedom and self-respect stripped away and then, ostensibly, returned years later after decades of incarceration? *The Exonerated* attempts to answer this question through the words of six innocent men and women who, after years in jail, emerged from death row to try to reclaim what was left of their lives. Among them are Sunny Jacobs, a mother of two whose unwavering belief during sixteen years in jail that she would be released (despite the execution of her husband, who was also innocent, for the same crime) allowed her to

dedicate herself to being a "living memorial" when she was freed. There is Kerry Max Cook, a Texan who was convicted of murdering a young woman even though she was found with another man's hair grasped in her fist--a man whom "Texas killed a thousand times, and just keeps on doing it" in his nightmares. And there is Delbert Tibbs, a black Chicago poet who speaks of his years on death row with anger and bitterness, yet also, as he says, "still sings." All their stories have been compiled and edited by Jessica Blank and Erik Jensen into *The Exonerated*, a play that is both a riveting work of theater and an exploration of the dark side of the American criminal justice system.

Ethics and Values in Psychotherapy - Max Rosenbaum 1982

"In the long-established democracies of Western Europe, electoral turnouts are in decline, membership is shrinking in the major parties, and those who remain loyal partisans are sapped of enthusiasm. Peter Mair's new book weighs the impact of these changes, which together show that, after a century of democratic aspiration, electorates are deserting the political arena. Mair examines the alarming parallel

development that has seen Europe's political elites remodel themselves as a homogeneous professional class, withdrawing into state institutions that offer relative stability in a world of fickle voters. Meanwhile, non-democratic agencies and practices proliferate and gain credibility--not least among them the European Union itself, an organization contributing to the depoliticization of the member states and one whose notorious "democratic deficit" reflects the deliberate intentions of its founders. Ruling the Void offers an authoritative and chilling assessment of the prospects for popular political representation today, not only in the varied democracies of Europe but throughout the developed world." -- Publisher website.

Freedom, Justice, and Decolonization - Lewis R. Gordon 2020-12-31

The eminent scholar Lewis R. Gordon offers a probing meditation on freedom, justice, and decolonization. What is there to be understood and done when it is evident that the search for justice, which dominates social and political philosophy of the North, is an insufficient approach for the achievements of dignity, freedom, liberation, and revolution? Gordon takes the reader on a journey as he interrogates a trail from colonized philosophy to re-imagining liberation and revolution to critical challenges raised by Afropessimism, theodicy, and looming catastrophe. He offers not forecast and foreclosure but instead an urgent call for dignifying and urgent acts of political commitment. Such movements take the form of examining what philosophy means in Africana philosophy, liberation in decolonial thought, and the decolonization of justice and normative life. Gordon issues a critique of the obstacles to cultivating emancipatory politics,

challenging reductionist forms of thought that proffer harm and suffering as conditions of political appearance and the valorization of nonhuman being. He asserts instead emancipatory considerations for occluded forms of life and the irreplaceability of existence in the face of catastrophe and ruin, and he concludes, through a discussion with the Circassian philosopher and decolonial theorist, Madina Tlostanova, with the project of shifting the geography of reason.

A powerful, revealing story of hope, love, justice, and the power of reading by a man who spent thirty years on death row for a crime he didn't commit.

"An amazing and heartwarming story, it restores our faith in

the inherent goodness of humanity." - Archbishop

Desmond Tutu In 1985,

Anthony Ray Hinton was

arrested and charged with two

counts of capital murder in

Alabama. Stunned, confused,

and only twenty-nine years old,

Hinton knew that it was a case

of mistaken identity and

believed that the truth would

prove his innocence and

ultimately set him free. But

with no money and a different

system of justice for a poor

black man in the South, Hinton

was sentenced to death by

electrocution. He spent his first

three years on Death Row at

Holman State Prison in

agonizing silence--full of

despair and anger toward all

those who had sent an innocent

man to his death. But as Hinton

realized and accepted his fate, he resolved not only to survive, but find a way to live on Death Row. For the next twenty-seven years he was a beacon--transforming not only his own spirit, but those of his fellow inmates, fifty-four of whom were executed mere feet from his cell. With the help of civil rights attorney and bestselling author of Just Mercy, Bryan Stevenson, Hinton won his release in 2015. With a

foreword by Stevenson, *The Sun Does Shine* is an extraordinary testament to the power of hope sustained through the darkest times. Destined to be a classic memoir of wrongful imprisonment and freedom won, Hinton's memoir tells his dramatic thirty-year journey and shows how you can take away a man's freedom, but you can't take away his imagination, humor, or joy.
