Lest We Forget - Kwan Kew Lai 2018-10-09

In 2014 after fighting through yards of bureaucratic red tape, leaving her family, and putting her own health at risk in order to help suffering strangers, Kwan Kew Lai finally arrived in Africa to volunteer as an infectious disease specialist in the heart of the largest Ebola outbreak in history. What she found was not only blistering heat, inhospitable working conditions, and deadly, unrelenting illness, but hope, resilience, and incredible courage. Lest We Forget chronicles the harrowing and inspiring time spent serving on the front lines of the ongoing Ebola outbreak—the complicated Personal Protective Equipment, the chlorine-scented air, the tropical heat, and the heartbreaking difficulties of treating patients she could not touch. Dr. Lai interweaves original diary entries to create a gripping narrative about life, death, and human relationships that will leave no reader unmoved. Lest We Forget exposes the raw brutality of Ebola, as well as the chaotic nature of the undersupplied and understaffed health infrastructure in the developing world. At once a memoir of triumphs and failures and a memorial, this book will ensure that the victims of Ebola and the fighters who sought to heal them will not be forgotten.

The History Boys - Alan Bennett 2008-09-04

An unruly bunch of bright, funny sixth-form boys in pursuit of sex, sport and a place at university. A maverick English teacher at odds with the young and shrewd supply teacher. A headmaster obsessed with results; a history teacher who thinks he's a fool. In Alan Bennett's new play, staff room rivalry and the anarchy of adolescence provoke insistent questions about history and how you teach it; about education and its purpose. The History Boys premiered at the National in May 2004. 'Nothing could diminish the incendiary achievement of this subtle, deep-wrought and immensely funny play about the value and meaning of education .. In short, a superb, life-enhancing play.' Amnesia and the Nation - Vincent J. Cheng 2018-03-30

This book examines the relationships between memory, history, and national identity through an interdisciplinary analysis of James Joyce's works—as well as of literary texts by Kundera, Ford, Fitzgerald, and Walker Percy. Drawing on thinkers such as Nietzsche, Marx, Freud, Luria, Anderson, and Yerushalmi, this study explores the burden of the past and the “nightmare of history” in Ireland and in the American South—from the Battle of the Boyne to the Good Friday Agreement, from the Civil War to the 2015 Mother Emanuel killings.

Lest We Forget - Max Arthur 2012-06-30

This skilfully compiled anthology draws on the phenomenally successful Forgotten Voices series. Lest We Forget brings together first-hand recollections from the Great War to the Second World War, to vividly illustrate the impact of war. Told in the actual words of the men, women and children who lived through a century of war it is a moving insight into the greatest conflicts of the twentieth century. The testaments of those who were there depict the horrors of war, yet also provide inspiration with tales of enduring courage, sacrifice and daring. Arranged thematically into chapters such as hope, fear, the kindness of strangers, the human cost and brothers in arms, it reveals the full scope of war in all its stark reality. Evocatively illustrated throughout with line drawings from the Imperial War Museum's archives, it will appeal to anyone wanting to gain an insight into not only specific conflicts, but the overarching and sometimes surprising effects of war in general. Lest We Forget vividly ensures that the wartime experiences of ordinary people will never be forgotten.

A fascinating document which serves to enlighten people about the involvement of men and women from the Caribbean during the last world war. It tells the story, largely through oral histories and personnel experiences, of the contribution made by them to that conflict and the subsequent settlement of a substantial number in the UK.

Why I Am an Independent Conservative - Karen Jourden 2012-02-15

Liberty is never free it comes at a cost. Throughout the history of the United States, our freedom has been safeguarded through immense sacrifice. But without the truth and knowledge of the past, this liberty can be threatened. Bringing to light some of the key incidents of American history, author Karen Jourden seeks to safeguard liberty by remembering the past in *Why I Am an Independent Conservative*. She delves into early American history, the writing of the US Constitution, the American Civil War, and Franklin D. Roosevelt's massive government expansion during the Great Depression. Urging all Americans to do their research, Jourden offers her straightforward, unvarnished opinion on the state of America today. She tackles tough subjects, including threats to our freedom of speech, the rise of the ACLU, liberalism, environmental activism, and much more. Keeping America free requires hard work, dedication, and, above all, vigilance. This treatise seeks to light the path for concerned Americans to take a stand, urging them to protect liberty and justice for all.

History's Great Queens 2-Book Bundle - C. W. Gortner 2012-04-02

In two stunning novels, C. W. Gortner brings to life two of history's most intriguing and courageous women: Catherine de Medici, the last legitimate descendant of the illustrious Medici family of Italy, and Juana of Castile, daughter of Queen Isabel and King Ferdinand of Spain, who would be the last queen to inherit her country's throne. *THE CONFESSIONS OF CATHERINE DE MEDICI* Catherine de Medici has been expelled from her native Florence and betrothed to Henri, son of François I of France. In an unfamiliar realm, she strives to create a role for herself through her patronage of the famous clairvoyant Nostradamus and her own innate gift as a seer. But in her fortieth year, Catherine is widowed, left alone with six young children in a kingdom torn apart by the ambitions of a treacherous nobility. Relying on her tenacity, wit, and uncanny gift for compromise, Catherine seizes power, intent on securing the throne for her sons, unaware that if she is to save France, she may have to sacrifice her ideals, her reputation, and the secret of her

embattled heart. *THE LAST QUEEN* Born amid her parents' struggle to unify and strengthen their kingdom, Juana, at the age of sixteen, is sent to wed Philip, heir to the Habsburg Empire. There, she finds unexpected love and passion with her dashing young husband, and at first she is content with her children and her married life. But when tragedy strikes and she becomes heir to the Spanish throne, Juana finds herself plunged into a battle for power against her husband that grows to involve the major monarchs of Europe. Besieged by foes on all sides, Juana vows to secure her crown and save Spain from ruin, even if it costs her everything. Includes an excerpt from C. W. Gortner's much-anticipated new novel featuring Isabel of Castile, *The Queen's Vow*.

Fingerprints of God: His Hand in History and in Human Hearts - Franklin S. Nauman 2008-01-25

Fingerprints of God is drawn from the author's experience during 50 years of parish ministry to a broad spectrum of worshippers, from teen-agers to senior citizens, from farmers to physicists, from blue collar workers to PhDs. All shared a common hunger to know God as an eternal reality in a world of change and pursued a quest to find reasons for faith. Evidence for the presence of God can be found in history, human experience and in Holy Scripture. *Fingerprints of God* relates contemporary situations to biblical precedents and personalities from Genesis to Revelation in search of Truth. The author follows the footsteps of others who found the fingerprints of God's hand in their lives. With illustrations from literature, biography, and his own personal experience, he shares insights of pastors and teachers who guided his own faith journey. The reader follows the foibles and faith of Old Testament characters leading to the person and work of Jesus Christ, the finger of God among us (Luke 11:20). The significance of his life and death and resurrection as the foundation for our faith are the focus of the concluding chapters. The author makes no claim to be profound or prophetic. Each chapter is a simple attempt to answer some question or address a current issue or need in the life of ordinary people. None of the featured topics purport to be the last word on the subject under consideration. Like the words and works of Jesus, much more could be said which is not recorded in this book, but these are written that you may believe that Jesus is the Christ, the Son of God, and that by believing you may have life in his name. John 20:30-31.

Utah and the American Civil War - Kenneth L. Alford 2017-07-25

When Fort Sumter was attacked in April 1861, hundreds of soldiers were stationed at the U.S. Army's Camp Floyd, forty miles southwest of Salt Lake City. The camp, established in June 1858, was the nation's largest military post. *Utah and the American Civil War* presents a wealth of primary sources pertaining to the territory's participation in the Civil War—material that until now has mostly been scattered, incomplete, or difficult to locate. Organized and annotated for easy use, this rich mix of military orders, dispatches, letters, circulars, battle and skirmish reports, telegraph messages, command lists, and other correspondence shows how Utah's wartime experience was shaped by a peculiar blend of geography, religion, and politics. Editor Kenneth L. Alford opens the collection with a year-by-year summary of important events in Utah Territory during the war, with special attention paid to the army's recall from Utah in 1861, the Lot Smith Utah Cavalry Company's 107-day military service, the Union army's return in 1862, and relations between the military and Mormons. Readers will find accounts of an 1861 attempt to court-martial a Virginia-born commander for treason, battle reports from the January 1863 Bear River Massacre, documents from the army's high command authorizing Governor James Doty to enlist additional Utah troops in October 1864, and evidence of Colonel Patrick Edward Connor's personal biases against Native Americans and Mormons. A glossary of nineteenth-century phrases, military terms, and abbreviations, along with a detailed timeline of key historical events, places the records in historical context. Collected and published together for the first time, these records document the unique role Utah played in the Civil War and reveal the war's influence, both subtle and overt, on the emerging state of Utah. *The Quarterly Journal of the New York State Historical Association* - 1914

The Faith of Scientists - Nancy Frankenberry 2008-08-31

The Faith of Scientists is an anthology of writings by twenty-one legendary scientists, from the dawn of the Scientific Revolution to the frontiers of science today, about their faith, their views about God, and the place religion holds--or doesn't--in their lives in light of their commitment to science. This is the first book to bring together so many world-renowned figures of Western science and present them in their own words, offering an intimate window into their private and public reflections on science and faith. Leading religion scholar Nancy Frankenberry draws from diaries, personal letters, speeches, essays, and interviews, and reveals that the faith of scientists can take many different forms, whether religious or secular, supernatural or naturalistic, conventional or unorthodox. These eloquent writings reflect a spectrum of views from diverse areas of scientific inquiry. Represented here are some of the most influential and colossal personalities in the history of science, from the founders of science such as Galileo, Johannes Kepler, Francis Bacon, Isaac Newton, Charles Darwin, and Albert Einstein, to modern-day scientists like Carl Sagan, Stephen Jay Gould, Jane Goodall, Freeman Dyson, Stephen Hawking, Edward O. Wilson, and Ursula Goodenough. Frankenberry provides a general introduction as well as concise introductions to each chapter that place these writings in context and suggest further reading from the latest scholarship. As surprising as it is illuminating and inspiring, The Faith of Scientists is indispensable for students, scholars, and anyone seeking to immerse themselves in important questions about God, the universe, and science.

The Oxford History of the First World War - Hew Strachan 2014-04-24

Histories you can trust. The First World War, now a century ago, still shapes the world in which we live, and its legacy lives on, in poetry, in prose, in collective memory and political culture. By the time the war ended in 1918, millions lay dead. Three major empires lay shattered by defeat, those of Germany, Austria-Hungary, and the Ottomans. A fourth, Russia, was in the throes of a revolution that helped define the rest of the twentieth century. The Oxford History of the First World War brings together in one volume many of the most distinguished historians of the conflict, in an account that matches the scale of the events. From its causes to its consequences, from the Western Front to the Eastern, from the strategy of the politicians to the tactics of the generals, they chart the course of the war and assess its profound political and human consequences. Chapters on economic mobilization, the impact on women, the role of propaganda, and the rise of socialism establish the wider context of the fighting at sea and in the air, and which ranged on land from the trenches of Flanders to the mountains of the Balkans and the deserts of the Middle East.

Redeeming Our Thinking about History - Vern S. Poythress 2022-02-02

Why Is It Critical for Christians to Study the Past? How does knowledge of the past shape Christians' views of God, Christ's redemption, and humanity as a whole? In his new book, Vern S. Poythress teaches Christians how to study and write about the past by emphasizing God's own command to remember his works and share them with the next generation. Readers will explore concepts such as providentialism, Christian historiography, divine purpose, and the 4 basic phases of biblical history: creation, fall, redemption, and consummation. By learning how to appropriately study history, believers will begin to recognize God's lordship over all events and how even minor incidents fit into his overarching plan.

Lest We Forget - George R. Knight 2008

In this unique devotional George R. Knight reintroduces us to our spiritual ancestors. They weren't perfect. They weren't all easy to get along with. But they shared one common goal: telling others about the soon-coming Savior. But as in any family, it's all too easy to forget where we've come from; to forget the struggles endured by those who have gone before us; to take for granted the inheritance they left to us. Sometimes we need a gentle reminder of the true value of their legacy. In shaping the future of Adventism, these intrepid pioneers molded not only our history, but our present. And as we reflect upon our past, perhaps we should also contemplate the future to which we are each contributors.

Lest We Forget - David V. Holtby 2018

More than 14,000 New Mexicans served in uniform during World War I, and thousands more contributed to the American home front. Yet today in New Mexico, as elsewhere, the Great War and the lives it affected are scarcely remembered. *Lest We Forget* confronts that amnesia. The first detailed study to describe New Mexico's wartime mobilization, its soldiers' combat experiences, and its veterans' postwar lives, the book offers a poignant account of the profound changes these Americans underwent both during and after the war. By focusing on New Mexico, historian David V. Holtby underscores the challenges New Mexicans faced as they rallied support at home, served in Europe, and came home as veterans. Income disparity, gender divisions, political factionalism, and conflict between rural and urban lifeways all affected the war and its aftermath. Holtby shows how New Mexico responded to these problems even as it coped with federal action and inaction. In more than 1,500 eyewitness statements collected in Spanish and English not long after the war ended, New Mexicans described the murderous effects of shrapnel and gas warfare, the impact of the Spanish influenza, and the many other challenges they faced on the front as members of the American Expeditionary Forces. *Lest We Forget* recounts the background of these soldiers, but it also tells the often-overlooked story of what happened to New Mexico's veterans after the war. Theirs is a story of resilience in the face of unfulfilled government promises, economic reversals, partisan politicizing of the state's American Legion posts, and the challenges the newly created Veterans Bureau faced as it was overwhelmed by cases of shell shock (known today as PTSD). Although New Mexicans' wartime efforts were

in some ways unique, their story ultimately provides a revealing glimpse of the experiences of all Americans during World War I. A timely reminder of the courage and tragedy that accompany full-scale modern warfare, Lest We Forget reminds us of the enduring legacy of a vast international conflict that had keenly felt and long-lasting repercussions back home.

Creating Community - Karl E. Westhauser 2005-09-18

Together, the essays present viewpoints that reflect the diverse ethnic, cultural, and academic backgrounds of the contributors and of the university. "Creating Community is informed by the awareness that Historically Black Colleges and Universities (HBCUs) have responded in significant ways to social changes of the past generation, and it addresses questions about the role of the black university in contemporary society. In this way, it offers readers the opportunity to understand how issues of diversity, identity, multiculturalism, and race impact Alabama State University in particular and HBCUs in general."--Jacket.

Mysticism in Newburyport - Peter James Ford 2022-10-05

"SHADOW RIDERS" is the third book in this seven-book series under the title "MYSTICISM IN NEWBURYPORT." It is the continuing unfolding story of just another soul's re-awakening in this lifetime to the truth of his divinity. After Peter's younger wild years growing up in Lynn, Massachusetts with heavy alcohol use and abusing all the drugs of the sixties, along with his love of riding motorcycles and physical

training, he found himself crawling into the 12-step recovery program for alcoholics. Peter abused alcohol for seven years and he drank alcoholically right from his first drink. He used all the drugs of the sixties and combined both alcohol and drugs, which brought him to his knees at a very young age. He was to be involved in endless trouble with police, car and motorcycle crashes, high speed chases, arrests, and many broken bones. Peter's journey in the recovery program began with a spiritual awakening and he began his education about the spiritual principles and the ancient wisdom from the past. While Peter was living in the Newburyport area and reading ancient writings from meditation masters, Peter was to have a profound spiritual experience and his journey back to his true self really began. Through the grace of a mediation master, Peter's own inner spiritual energy (called kundalini) burst wide open and this energy flowed up his spine and chakras and caused incredible insights and experiences. It was later that Peter learned about 'Kundalini Yoga' and what had happened to him. Peter was to have profound experiences in long nights of meditation down by the Merrimac River and to have numerous past life experiences. To honor his spiritual awakening while in this historic seaport, he decided to use the name "MYSTICISM IN NEWBURYPORT" for the title. Peter's first book was introduced at the Miami International Book Fair as a modern-day version of the Herman Hesse classic novel "SIDDHARTHA." These tales are about all the great people from this time in Peter's life and all the gifts and blessings that have flowed and continue to flow to this silly, Irish seeker. Peter hopes that his writings will be of some use to others or at least bring a smile to the reader's face, about the unique life of just another seeker. This book is dedicated to Barbara Eleanor Parton. She is in the below pictures on our bikes...
