Autonomous Driving - Markus Maurer
2016-05-21

This book takes a look at fully automated, autonomous vehicles and discusses many open questions: How can autonomous vehicles be integrated into the current transportation system with diverse users and human drivers? Where do automated vehicles fall under current legal frameworks? What risks are associated with automation and how will society respond to these risks? How will the marketplace react to automated vehicles and what changes may be necessary for companies? Experts from Germany and the United States define key societal, engineering, and mobility issues related to the automation of vehicles. They discuss the decisions programmers of automated vehicles must make to enable vehicles to perceive their environment, interact with other road users, and choose actions that may have ethical consequences. The authors further identify expectations and concerns that will form the basis for individual and societal acceptance of autonomous driving. While the safety benefits of such vehicles are tremendous, the authors demonstrate that these benefits will only be achieved if vehicles have an appropriate safety concept at the heart of their design. Realizing the potential of automated vehicles to reorganize traffic and transform mobility of people and goods requires similar care in the design of vehicles and networks. By covering all of these topics, the book aims to provide a current, comprehensive, and scientifically sound

treatment of the emerging field of "autonomous driving".

Neuropsychotherapy - Klaus Grawe 2017-09-25

Neuropsychotherapy is intended to inspire further development and continual empirical updating of consistency theory. It is essential for psychotherapists, psychotherapy researchers, clinical psychologists, psychiatrists, neuroscientists, and mental-health professionals. Profoundly important and innovative, this volume provides necessary know-how for professionals as it connects the findings of modern neuroscience to the insights of psychotherapy. Throughout the book, a new picture unfolds of the empirical grounds of effective psychotherapeutic work. Author Klaus Grawe articulates a comprehensive model of psychological functioning-consistency theory and bridges the gap between the neurosciences and the understanding of psychological disorders and their treatment.

Neuropsychotherapy illustrates that psychotherapy can be even more effective when it is grounded in a neuroscientific approach.

Cutting across disciplines that are characteristically disparate, the book identifies the neural foundations of various disorders, suggests specific psychotherapeutic conclusions, and makes neuroscientific knowledge more

accessible to psychotherapists. The book's discussion of consistency theory reveals the model is firmly connected to other psychological theoretical approaches, from control theory to cognitive-behavioral models to basic need theories.

Wetlands - Charlotte Roche 2010-07-06

An international sensation—with more than 1 million copies sold in Germany, and rights snapped up in 26 countries—*Wetlands* is the sexually and anatomically explicit novel that is changing the conversation about female identity and sexuality around the world. Helen Memel is an outspoken, contradictory eighteen-year-old, whose childlike stubbornness is offset by a precocious sexual confidence. She begins her story from a hospital bed, where she's slowly recovering from an operation and lamenting her parents' divorce. To distract and console herself, Helen ruminates on her past sexual and physical adventures in increasingly uncomfortable detail; what ensues is "a headlong dash through every crevice and byproduct, physical and psychological, of its narrator's body and mind." (The New York Times) Fantastically sexual, Helen is constantly blurring the line between celebration, provocation, and dysfunction in her relationship with her body. Punky alienated teenager, young woman reclaiming her body from the tyranny of repressive hygiene (women mustn't smell, excrete, desire), bratty smartass, vulnerable, lonely daughter, shock merchant and pleasure-seeker—Helen is all of these things and more, and her frequent attempts to assert her maturity ultimately prove just how fragile, confused, and young she truly is. In the tradition of *The Sexual Life of Catherine M* and *Melissa P.'s 100 Strokes of the Brush Before Bed*, Charlotte Roche exposes the double bind of female sexuality, delivering a compulsively readable and fearlessly intimate manifesto on sex, hygiene, and the repercussions of family trauma.

Distraught that they never made peace, Katie leaves her orderly, sheltered life in London behind and embarks on a journey to find out the truth. With only the entries of Mia's travel journal as her guide, Katie retraces the last few months of her sister's life, and—page by page, country by country—begins to uncover the mystery surrounding her death. . . . Apeirogon: A Novel - Colum McCann 2020-02-25

NEW YORK TIMES BESTSELLER • "A quite extraordinary novel. Colum McCann has found the form and voice to tell the most complex of stories, with an unexpected friendship between two men at its powerfully beating heart."—Kamila Shamsie, author of *Home Fire* FINALIST FOR THE DUBLIN LITERARY AWARD • LONGLISTED FOR THE BOOKER PRIZE • WINNER OF THE NATIONAL JEWISH BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Independent* • *The New York Public Library* • *Library Journal* From the National Book Award-winning and bestselling author of *Let the Great World Spin* comes an epic novel rooted in the unlikely real-life friendship between two fathers. Bassam Aramin is Palestinian. Rami Elhanan is Israeli. They inhabit a world of conflict that colors every aspect of their lives, from the roads they are allowed to drive on to the schools their children attend to the checkpoints, both physical and emotional, they must negotiate. But their lives, however circumscribed, are upended one after the other: first, Rami's thirteen-year-old daughter, Smadar, becomes the victim of suicide bombers; a decade later, Bassam's ten-year-old daughter, Abir, is killed by a rubber bullet. Rami and Bassam had been raised to hate one another. And yet, when they learn of each other's stories, they recognize the loss that connects them. Together they attempt to use their grief as a weapon for peace—and with their one small act, start to permeate what has for generations seemed an impermeable conflict. This extraordinary novel is the fruit of a seed planted when the novelist Colum McCann met the real Bassam and Rami on a trip with the non-profit organization Narrative 4. McCann was moved by their willingness to share their stories with the world, by their hope that if they could see themselves in one another, perhaps others could too. With their blessing, and unprecedented access to their families, lives,

and personal recollections, McCann began to craft *Apeirogon*, which uses their real-life stories to begin another—one that crosses centuries and continents, stitching together time, art, history, nature, and politics in a tale both heartbreaking and hopeful. The result is an ambitious novel, crafted out of a universe of fictional and nonfictional material, with these fathers' moving story at its heart.

Chronicle of a Blood Merchant - Yu Hua 2007-12-18

From the acclaimed author of *Brothers and China in Ten Words*: here is Yu Hua's unflinching portrait of life under Chairman Mao. A cart-pusher in a silk mill, Xu Sanguan augments his meager salary with regular visits to the local blood chief. His visits become lethally frequent as he struggles to provide for his wife and three sons at the height of the Cultural Revolution. Shattered to discover that

his favorite son was actually born of a liaison between his wife and a neighbor, he suffers his greatest indignity, while his wife is publicly scorned as a prostitute. Although the poverty and betrayals of Mao's regime have drained him, Xu Sanguan ultimately finds strength in the blood ties of his family. With rare emotional intensity, grippingly raw descriptions of place and time, and clear-eyed compassion, Yu Hua gives us a stunning tapestry of human life in the grave particulars of one man's days.

The Anabaptist Vision - Harold S. Bender 1960

Bender defines the spirit and purposes of the original Anabaptists. Three major points of emphasis are: the transformation of the entire way of life of the individual to the teachings and example of Christ, voluntary church membership based upon conversion and commitment to holy living, and Christian love and nonresistance applied to all human relationships.

A Theory of Intergenerational Justice - Joerg Chet Tremmel 2009-12

This highly accessible book provides an extensive and comprehensive overview of current research and theory about why and how we should protect future generations. It exposes how and why the interests of people today and those of future generations are often in conflict and what can be done. It rebuts critical concepts such as Parfit's non-identity paradox and Beckerman's denial of any possibility of intergenerational justice. The core of the book is the lucid application of a veil of ignorance to derive principles of intergenerational justice which show that our duties to posterity are stronger than is often supposed. Tremmel's approach demands that each generation both consider and improve the well-being of future generations. To measure the well-being of future generations Tremmel employs the Human

Development Index rather than the metrics of utilitarian subjective happiness. The book thus answers in detailed, concrete terms the two most important questions of every theory of intergenerational justice: what to sustain? and how much to sustain?

The finger erases your memory forever and leaves a mark, which all of us have above our upper lip. All of us, except me. The New Parisienne - Lindsey Tramuta 2020-07-07

“Tramuta sweeps away the tired clichés of the Parisian woman with her vivid profiles of the dynamic and creative ‘femmes’ now powering the French capital.” —Eleanor Beardsley, NPR Paris correspondent *The New Parisienne* focuses on one of the city’s most prominent features, its women. Lifting the veil on the mythologized Parisian woman—white, lithe, ever fashionable—Lindsey Tramuta demystifies this oversimplified archetype and recasts the women of Paris as they truly are, in all their complexity. Featuring 50 activists, creators, educators, visionaries, and disruptors—like Leïla Slimani, Lauren Bastide, and Mayor Anne Hidalgo—the book reveals Paris as a blossoming cultural center of feminine power. Both the featured women and Tramuta herself offer up favorite destinations and women-owned businesses, including beloved shops, artistic venues, bistros,

and more. The New Parisienne showcases "Parisianness" in all its multiplicity, highlighting those who are bucking tradition, making names for themselves, and transforming the city. "With stunning photographs and inspiring profiles, Lindsey Tramuta tramples the myths and takes us into the lives of real Parisiennes.

Bravo!"—Pamela Druckerman, New York Times—bestselling author of *Bringing Up Bébé* "Like the subjects of her book, Lindsey Tramuta is a force. The New Parisienne is the go-to chronicle of the joyful, progressive, pioneering women of a city that Tramuta understands with deep intelligence." —Lauren Collins, New York Times—bestselling author of *When in French* "Tramuta's new book posits that Parisian women have been ahead of these radically changing times. But rather than being trendsetters in the stylish sense, they qualify as visionaries and agents of change across spheres of diversity, tech, culture, politics, and more." —Vogue

Walks with Walser - Carl Seelig 2017-04-25

A unique and personal portrait of the beloved, legendary Swiss writer, finally in English After a nervous breakdown in 1929, Robert Walser spent the remaining twenty-seven years of his life in mental asylums, closed off from the rest of the world in almost complete anonymity. While at the Herisau sanitarium, instead of writing, Walser practiced another favorite activity: walking. Starting in 1936, Carl Seelig, Walser's friend and literary executor, visited and accompanied him on these walks, meticulously recording their conversations. As they strolled, Walser told stories, shared his daily experiences of the sanatorium, and expressed his opinions about books and art, writing and history. When Seelig asked why he no longer wrote, Walser famously replied: "I'm not here to write, I'm here to be mad." Filled with lively anecdotes and details, Walks with Walser offers the fullest available account of this wonderful writer's inner and outer life.

Intuition - David G. Myers 2008-10-01

How reliable is our intuition? How much should we depend on gut-level instinct rather than rational analysis when we play the stock market, choose a mate, hire an employee, or assess our own abilities? In this engaging and accessible book, David G. Myers shows us that while intuition can provide us with useful—and often amazing—insights, it can also dangerously mislead us. Drawing on recent psychological research, Myers discusses the powers and perils of intuition when: • judges and jurors determine who is telling the truth; • mental health workers predict whether someone is at risk for suicide or

crime; • coaches, players, and fans decide who has the hot hand or the hot bat; • personnel directors hire new employees; • psychics claim to be clairvoyant or to have premonitions; • and much more.

The Case for Degrowth - Giorgos Kallis 2020-09-29

The relentless pursuit of economic growth is the defining characteristic of contemporary societies. Yet it benefits few and demands monstrous social and ecological sacrifice. Is there a viable alternative? How can we halt the endless quest to grow global production and consumption and instead secure socio-ecological conditions that support lives worth living for all? In this compelling book, leading experts Giorgos Kallis, Susan Paulson, Giacomo D'Alisa and Federico Demaria make the case for degrowth - living well with less, by living differently, prioritizing wellbeing, equity and sustainability. Drawing on emerging initiatives and enduring traditions around the world, they advance a radical degrowth vision and outline policies to shape work and care, income and investment that avoid exploitative and unsustainable practices. Degrowth, they argue, can be achieved through transformative strategies that allow societies to slow down by design, not disaster. Essential reading for all concerned citizens, policy-makers, and students, this book will be an important contribution to one of the thorniest and most pressing debates of our era.
