Phtls: Prehospital Trauma Life Support, Military Edition - Naemt 2019-07-29

PHTLS: Prehospital Trauma Life Support, Military Edition consists of the PHTLS core content and features thirteen chapters written by military prehospital trauma care experts for practitioners in the military environment. PHTLS: Prehospital Trauma Life Support, Military Edition is created in partnership between the National Association of Emergency Medical Technicians (NAEMT) and the Committee on Tactical Combat Casualty Care (C-TCCC). Since 1996, TCCC has improved the care rendered in combat prehospital environments. TCCC is the battlefield prehospital component of the Joint Trauma System, an organization within the United States Department of Defense that projects combat trauma care out to the point of injury and continues that care seamlessly while bringing the casualty home for recuperation and rehabilitation. TCCC guidelines are continuously revised and updated by C-TCCC, an all-volunteer group of military medicine and trauma care specialists. The membership of C-TCCC includes combat medics, corpsmen, and pararescuemen as well as physicians and physician assistants.

Handbook of Public Administration - W. Bartley Hildreth 2018-01-19

Since the publication of the previous edition, the best-selling Handbook of Public Administration enters its third edition with substantially revised, updated, and expanded coverage of public administration history, theory, and practice. Edited by preeminent authorities in the field, this work is unparalleled in its thorough coverage and comprehensive references. This handbook examines the major areas in public administration including public budgeting and financial management, human resource management, decision making, public law and regulation, and political economy. Providing a strong platform for further research and advancement in the field, this book is a necessity for anyone involved in public administration, policy, and management. This edition includes entirely new chapters on information technology and conduct of inquiry. In each area of public administration, there are two bibliographic treatises written from different perspectives. The first examines the developments in the field. The second analyzes theories, concepts, or ideas in the field's literature.

Chaos - Tom O'Neill 2019-06-25

A journalist's twenty-year fascination with the Manson murders leads to shocking new revelations about the FBI's involvement in this riveting

reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, Chaos mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

The War Within - Rajeev Ramchand 2011

The increase in suicides among military personnel has raised concern. This book reviews suicide epidemiology in the military, catalogs military suicide-prevention activities, and recommends relevant best practices.

Best Career and Education Web Sites - Rachel Singer Gordon 2004 Lists and offers reviews of over three hundred top sites on the Internet for information on careers, college, training, and job searching.

The Bluejacket's Manual - Thomas J. Cutler 2017-11-15

From the days of oars and coal-fired engines to the computerized era of the 21st century, The Bluejacket's Manual has been an essential part of the American Sailor's sea bag for over one hundred years, serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks. Written by a Sailor whose decades of naval service included sea duty in patrol craft, destroyers, cruisers, and aircraft carriers as both an officer and a "white hat," this newest edition has been overhauled to reflect the current state of the ever-evolving United States Navy and includes chapters on ships and aircraft, uniforms, weapons, damage control, communications, naval customs and ceremonies, security, leadership, pay and benefits, naval missions, military fundamentals, and seamanship. Since Lieutenant Ridley McLean wrote the first edition of this perennial classic, the Navy has grown from fledgling sea power to master of the world's oceans, and both technology and American culture have changed in ways probably unimaginable in his day. Although The Bluejacket's Manual has necessarily evolved (through more than twenty revisions) to reflect those changes, its original purpose has remained steadfastly on course. Like its predecessors, this new edition makes no attempt to be a comprehensive textbook on all things naval—to do so today would require a multivolume set that would defy practicality—but it continues to serve two very important purposes. First, it serves as a primer that introduces new recruits to their Navy and helps them make the transition from civilian to Sailor. Second, it serves as a handy reference that Sailors can rely on as a ready source of basic information as they continue their service, whether for only one "hitch" or for an entire career. To that end, this 25th edition has been reorganized to more efficiently reflect those dual purposes, with the first part of the book consisting of "Chapters" that provide introductions and basic explanations that Sailors new to the Navy will find most helpful, and the second part consisting of "Tabs" that deal with specifics—often mere tables—that seasoned Sailors will find useful for reference purposes. Also unique to this latest edition has been the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material. In total, this latest edition of a recognized Navy classic continues to serve today's "Bluejackets" and "Old Salts" in the traditional manner while providing a fresh approach that will be welcomed by potential recruits, Navy buffs, and a growing number of Bluejacket Manual collectors.

Tropical Times - 2001

Congressional Record - Congress 2009-07-07

The Congressional Record contains the proceedings and debates of each Congressional session in the House of Representatives and the Senate. Arranged in calendar order, each volume includes the exact text of everything that was said and includes members' remarks.

Colossus Reborn - David M. Glantz 2005

"Beyond the battles themselves, Glantz also presents an in-depth portrait of the Red Army as an evolving military institution. Assessing more clearly than ever before the army's size, strength, and force structure, he provides keen insights into its doctrine, strategy, tactics, weaponry, training, officer corps, and political leadership. In the process, he puts a human face on the Red Army's commanders and soldiers, including women and those who served in units - security (NKVD), engineer, railroad, auto-transport, construction, and penal forces - that have till now remained poorly understood."--BOOK JACKET.
